TO
THE
TRADE
We show
in this catalogue the most complete line of Doors, Blinds, Sash and Mill Work that can be found in any publication, making it a useful guide and reference.
WE MANUFACTURE OUR OWN GOODS,
affording the buyer the benefit of uniform make, and carry on hand the largest stock and most complete assortment of these goods at this, the largest Door and Sash market in the world. We make goods in size and style suitable for any market, and reach with our product all localities. When you are in Chicago we invite your personal inspection of our stock.
Yours very truly,
THE FOSTER MUNGER CO.

NOTICE

IN ordering or making inquiry on special cuts or designs shown in other than our catalogue, simply refer by number, "stating whose book," as we have in our office copies of every book published.

THE FOSTER MUNGER CO.
CHICAGO.

...SPECIAL NOTICE...

About special sizes of

DOORS, BLINDS or SASH

peculiar to the different local markets.....

Being a manufacturing house, we make Doors, Blinds and Sash in size and style suitable for any market, and on these special sizes of Sash and Blinds, that is (differences in frame openings as compared with our regular book sizes) we make them at the same price as our regular stock work.

For example:—In parts of Indiana, Ohio, New York, Pennsylvania and New England the local requirements may be that a 12-inch glass 4-light window be made 2 feet 4 inches wide or 2 feet 4½ inches outside measure, while our list, page 10, shows 2 feet 5 inch frame opening. It is also true that in certain localities a 24-inch glass 2-light window may be called for 2 feet 4 inches, 2 feet 4½ inches or 2 feet 5 inches wide, while our book, page 13, shows 2 feet 4⅛ inches as the frame opening. In all such cases our list price of the window and the discount which applies will be the same for those special openings (that are required at the different markets) as though the windows were ordered our regular book measurements. In other words, the glass measurement only is considered in basing our list price.

For example:—A 12x28, 4-light, 1⅜-inch window, open, we list $1.32; glazed $4.30, as appears on page 10, whether the frame opening be 2 feet 4 inches, 2 feet 4½ inches, 2 feet 4¾ inches, or 2 feet 5 inches wide. The same is true as applied to Window Blinds.

When ordering goods from us, *other than our regular book measurements,* it is necessary in all cases to *specify the outside or frame opening* opposite each item. Otherwise we do not know what your particular requirements may be, and it is our rule *in all cases* to ship our regular measurement of Blinds or Sash, if not specified otherwise.

For Eastern Style Doors see pages 114 to 117.

Yours very truly,

THE FOSTER-MUNGER CO.

DIRECTIONS FOR ORDERING.

GIVE WIDTH FIRST in specifying sizes; this applies to all goods in our line.

ORDERS FOR SASH should state the size of the glass, number of lights in window, whether plain or check rail, glazed or unglazed. (If glazed, state Single or Double Strength Glass). For segment or circle top windows, always give the radius of the segment and circle, otherwise we shall make our regular radius, which is the width of the window. For circle head and segment head windows, always state whether they are wanted to finish circle inside and outside, like plans 1 and 3, on page 5, or to finish circle on outside only, as plans 2 and 4 on same page; also, where frames are made, we should have width and height of the frame in the clear, and if not regular Western sizes, as shown in sash measurements in this book, then give size of Sash Opening. (Sketches of odd sash are better than descriptions).

ORDERS FOR DOORS should state size, thickness number of panels and quality; if moulded, say if one or both sides, flush or raised moulding. From patterns in this or other catalogues refer by number. If special design, make sketch.

ORDERS FOR OUTSIDE BLINDS should state size of glass, number of lights in window, thickness of blinds, stationary or rolling slats; if for segment or circle head windows, give radius; also it is well to mention if for wood or brick building.

ORDERS FOR INSIDE BLINDS should state exact size of opening (outside measure), the number of folds (width of box, if any), and if panels or slats, and where blinds are to be cut. If of patterns shown on page 49, refer by number, or make sketch if special.

ORDERS FOR FRAMES should state whether for a frame or brick building; if for a brick building, give thickness of wall; if for a frame building, give width of studding, and whether outside or inside, or both. For Window Frames, state if for plain or check rail sash, with or without pulleys. For inside door jambs, give the width of the jamb, whether with rabbet or stop.

ORDERS FOR MOULDINGS should give plainly the number of the moulding. We use the Chicago Moulding Book. If special moulding, give exact detail or sketch.

REFER BY NUMBER in catalogue, or send sketches as far as possible on anything other than common stock.

NOTICE.—A window indicates two pieces. A sash indicates one piece; a pair of blinds indicates two pieces. A blind indicates one piece. A set of sash or blinds indicates more than two pieces, and order should be accompanied with elevation.

CIRCLE TOP AND SEGMENT WINDOWS.

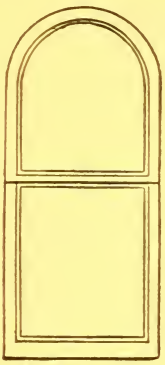

Fig. 1.
For Window Frames, Circle inside and outside.

Be Explicit in Giving Your Orders.

Fig. 2.
For Window Frames, Circle outside, Square inside.

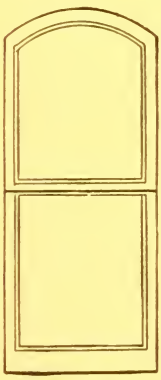

Fig. 3.
For Window Frames, Segment inside and outside.

Circle or Segment Head Windows can be filled with any number of lights desired.

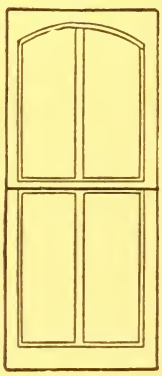

Fig. 4.
For Window Frames, Segment outside, Square inside.

For Segment or Circle Top Windows always give the radius of the segment and circle, otherwise we shall make our regular radius, which is the width of window.

When ordering circle and segment head windows, always state whether they are wanted to finish circle inside and outside like figures 1 and 3, or to finish circle on outside only, as figures 2 and 4.

INSIDE FOLDING BLINDS.

See cuts on next page and list prices below.

We make a specialty of Inside Folding Blinds, turning out the very best of work, all smooth, clean, selected stock suitable for oil finish, and are giving particular attention to this branch of our business—are able to compete in prices and give the best workmanship.

We manufacture Inside Blinds in White Pine, Yellow Pine, Poplar, Oak (plain or quarter-sawed), Sycamore, Birch, Ash, Maple, Cherry, Walnut, in fact in any of the hardwoods, and make Blinds in size and style suitable to any market.

LIST PRICE OF INSIDE FOLDING BLINDS

1⅛-inch O. G. Stiles and Rails, either panels or rolling slats measuring per foot in height.

	Per foot.
2 Fold up to and including 2 feet wide	$ .85
3 Fold up to and including 2 feet 11 inches wide	1.10
4 Fold up to and including 2 feet 11 inches wide	1.25
4 Fold over 2 feet 11 inches wide and under 4 feet	1.40
6 Fold over 2 feet 11 inches wide and under 4 feet	1.65

For ⅞ inch deduct 5 per cent.

The list price of Folding Inside Blinds, as given above, is the same, whether made of White Pine or any of the hardwoods. The difference in the net cost is determined by the different discounts we make on the hardwoods.

We manufacture Inside Blinds square top, circle or segment, and are in a position to furnish these goods in small lots or in quantities at lowest going prices.

1052 ¾ Panel.

1053 All Panel.

The Pease Venetian Blind is far ahead of all other makes of Venetian Blinds; they occupy less space, are more simple in construction, better made and of better general appearance than any Venetian Blind on the market. The round head admits of the slats being turned or closed either in or out.

Venetian Blinds do not require any special frame, are easily hung, do not get out of order, can be removed handily for cleaning, do not interfere with draperies, and, as the cuts on the following pages show, can be all closed or partly closed to exclude sun, yet admit light.

LIST PRICE.

All Blinds sold by the Square Foot, and no Blind computed at less than Fifteen Square Feet.

ALL COLORS OF LADDER TAPE AND CORD ARE SAME PRICE.	Price per Square Ft. 2-inch Slats.	
	Perfect Finish.	Special Finish.
Spruce, Whitewood, Basswood, Yellow and Norway Pine, finished natural, stained to imitate hardwood, or painted in dark colors	$0.21	$0.24
Painted in light colors or tints	.23	.26
Painted in enamels	.26	.29
Enameled, rubbed between coats	.40	.43
White Pine, Cypress, Hazel, Plain Oak, Ash, Elm, Chestnut and Ordinary Maple	.23	.26
Plain Birch and Butternut	.24	.27
Quartered Oak and Sycamore	.26	.29
Cherry, Black Walnut, California Red Wood and White Ash	.32	.35
Red Mahogany, Curly Birch, Birdseye and White Maple	.40	.43

ABOVE PRICES ARE SUBJECT TO DISCOUNT.

Our Perfect Finish is one coat of filler and one coat of best coach varnish. Our Special Finish has in addition one coat of fine rubbing varnish, hand rubbed with pumice-stone, and oil.

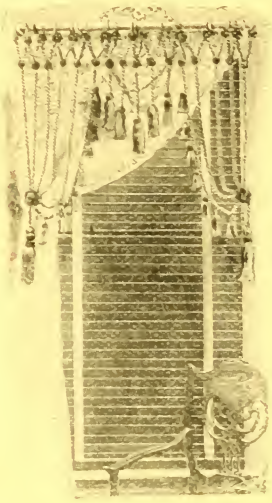

Above price is for Blinds and all fittings complete, ready to hang and operate, finished as described. In comparing price with other makes or kinds of blinds, consider the "fittings and finishing" included in our prices.

"Venetian" are the best and cheapest style of Blinds. See designs on following pages.

HOW TO HANG—Screw Hanger Brackets in position and "on line," then grasp round head as illustrated in cut and hang in the brackets, letting slats drop into position; fasten cord to cord-holder, and the work is done. We furnish all cord-holders and fixtures complete and woodwork finished ready to hang.

Simplest, cheapest and best blind in use.

THE F-M CO.'S

IMPROVED SLIDING BLINDS.

Our improved Sliding Blinds are by far the best Sliding Blinds on the market. They impart to any building a highly ornamental appearance, both in its exterior and interior arrangements—they are made very light, only ½ inch in thickness, and though constructed of light material possess great strength and lasting qualities.

Can be closed with the window raised and cannot blow open or rattle, thus giving the best medium of ventilation.

They require no hinges, and all trimmings and hardware we furnish.

They do not interfere with curtains or window ornaments, and admit light and air from any part of the window.

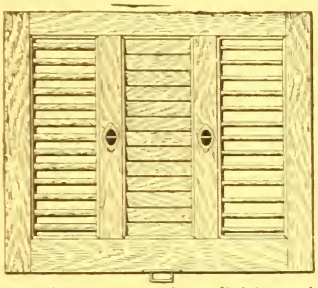

They neither rattle nor get out of order, economize space, and can be used with or without pockets below.

They require no special Frame, as they can be attached with equal facility to any ordinary window frame.

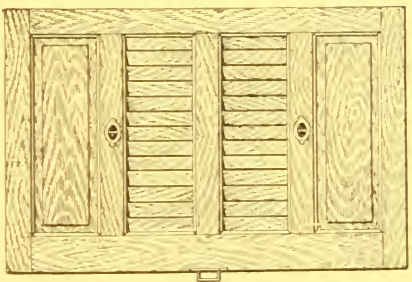

These Blinds are specially made to order in strictly first-class workmanship in the white or finished complete; either varnished in the natural colors of the different woods or stained and varnished, or wood filled and cabinet or rubbed finish. All trimmings and hardware we furnish, which is included in the price of blinds given on page 56.

THE FOSTER-MUNGER COMPANY'S

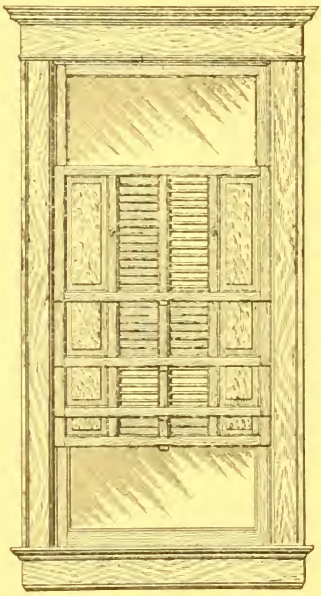

IMPROVED SLIDING BLINDS.

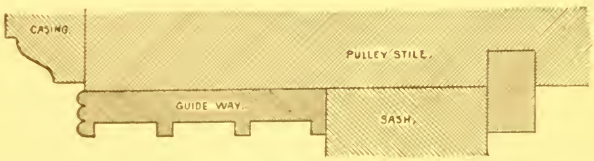

View of one section, three divisions wide all rolling slats.

View of one section, four divisions wide, outside divisions panel, two inside divisions rolling slats.

View of Blinds in position.

No. 1

This section shows that no special frame is required to use our Sliding Blinds. The guideway is fastened on pulley stile, acting as a stop for the sash.

No. 2

To apply the guideway as shown in this section requires a special frame and we recommend its use in all cases where the window frames have not yet been made.

NOTICE.

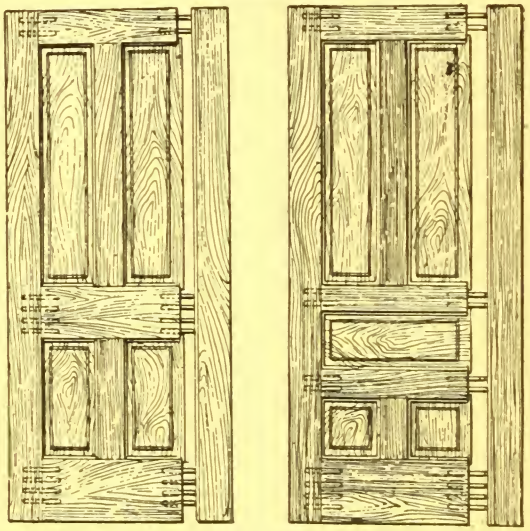

We manufacture Side Lights finished to correspond with any of the Cottage Front Doors at a slight cost over ordinary moulded side lights.

Any design of door furnished, whether illustrated in our book or that of another manufacturer or dealer.

THE FOSTER MUNGER CO.
CHICAGO.

THE "PERFECT" DOWEL DOOR.

We manufacture no other.

STRONGEST AND BEST DOOR MADE.

The Dowel Door is the greatest improvement in door-making ever attempted by western factories, combining both strength and beauty, doing away with ugly pins and tenon, an oil finish construction with strength added.

We Guarantee Every Joint Perfect and Cannot Open.

Every practical door-maker and builder knows the so-called "Blind Mortise" Door (Pine Stub Tenon) is weak.

The old-style pinned door with tenon running through stile and wedged is second to the Dowel Door in strength, accordingly preferable to the "Blind Mortise" Door.

The Dowel Door with twenty hardwood dowels (ten on each side), 9-16x6 inches driven and glued does away with pins and tenon, and is the strongest and best door manufactured. We make all our stock doors this way and charge nothing extra.

SPECIAL MENTION.

All our stock doors 1⅜ inch thick are made with *panels full 5-8 inch thick*, a heavier panel than is furnished by other makers—*will not check or bow;* are sound honest panels cut from kiln-dried plank 1½ inch thick. Do not be deceived that others are "just as good." Demand a ⅝-inch panel and measure by using a straight edge, and see that the panels *are* ⅝ inch thick—*we* guarantee this thickness.

Carlton Foster's make * F * stamped on bottom rail.

BUNDLING OF GOODS

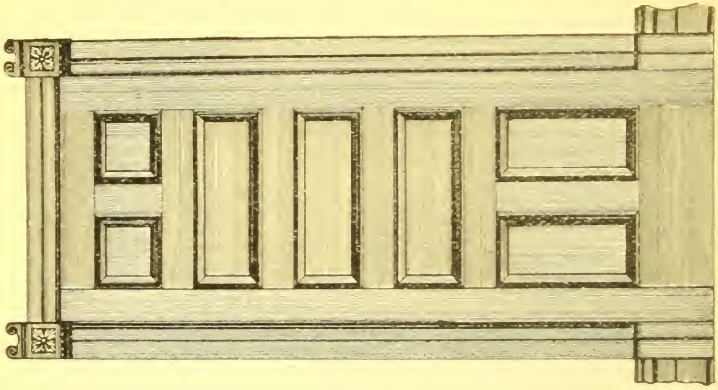

We show below a photographic view of goods properly bundled for shipment.

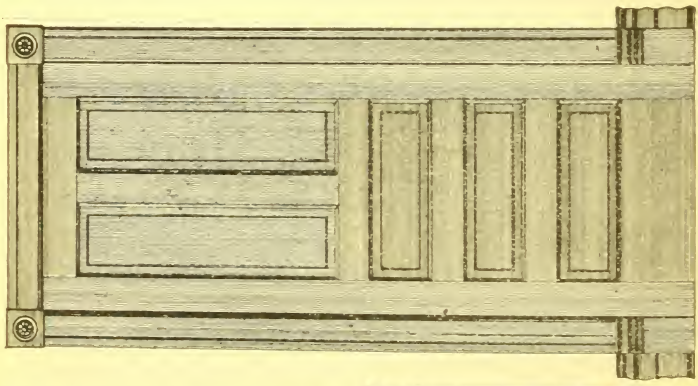

How The Foster Munger Co. Bundle Their Goods.

Our experience in long haul shipments by local freight has taught us that by proper bundling of goods, as indicated above, we can reach all localities, withstanding all handling, transfers, etc., with practically no damage or loss of goods in transit. We take special care in the packing and bundling of all our shipments, so that goods bought from us (no matter how far the haul) are received at destination in good order — bright, clean, new stock.

COMPOSITION CARVINGS

This product, composition carving, is practical and cheap, giving a handsome and decorative effect. Applied on interior or exterior work, door and window cap trims, friezes, around stair casings, face boards, etc. Planted on flat surfaces substitutes expensive carving; made a perfect match for any wood and finished like the wood. More durable than the wood itself.

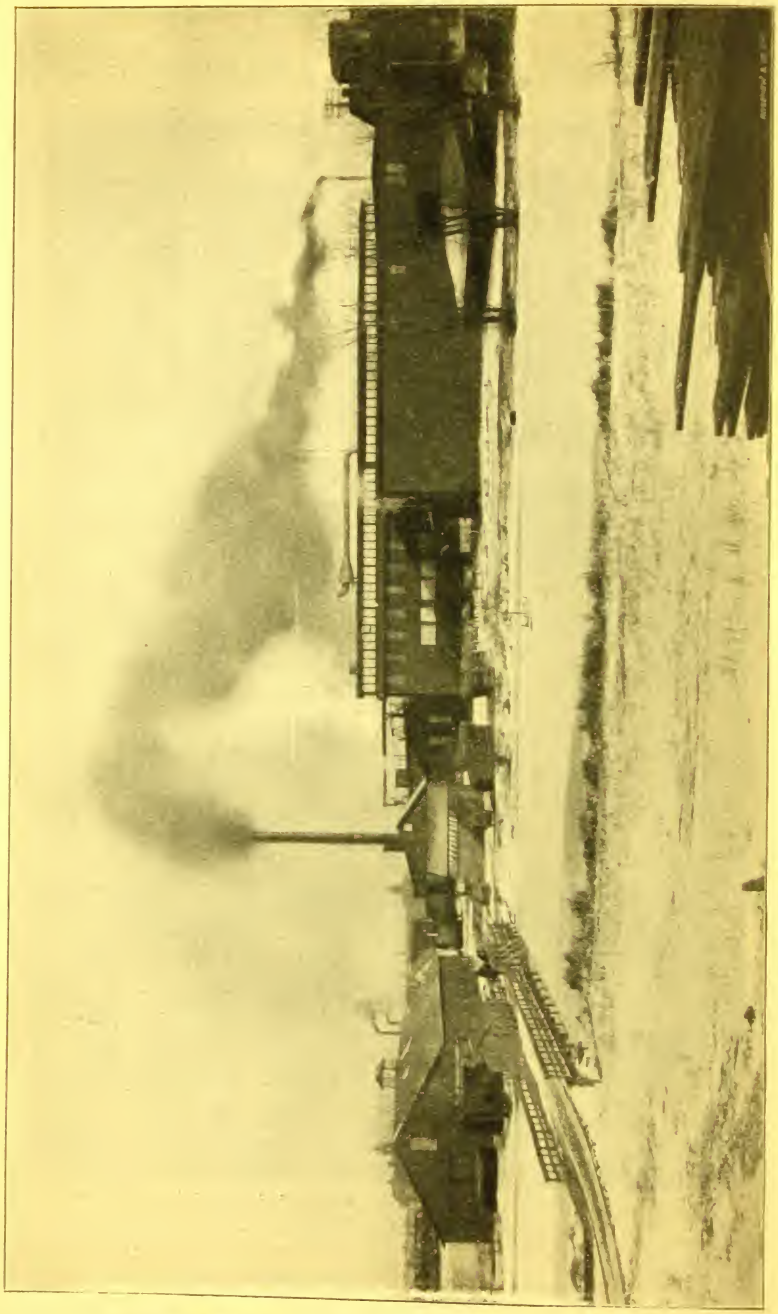

We invite inquiries, with special size of ornamentation, etc., for prices, to be made and planted on by us, or the ornamentation gotten out and shipped by itself. With full information enabling you to plant it on and finish in the building.

VERANDA PORCH POSTS.

Roped.

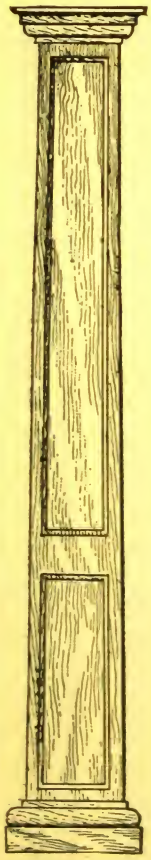

1673 1676 1677 1674 1678 1675

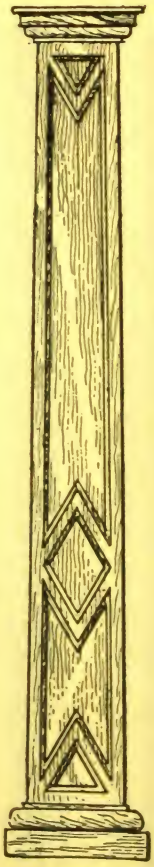

Selected No. 1 poplar squares. Nice stock and workmanship.

For prices see page 244.

PANELED BOX COLUMNS.

1688

1689

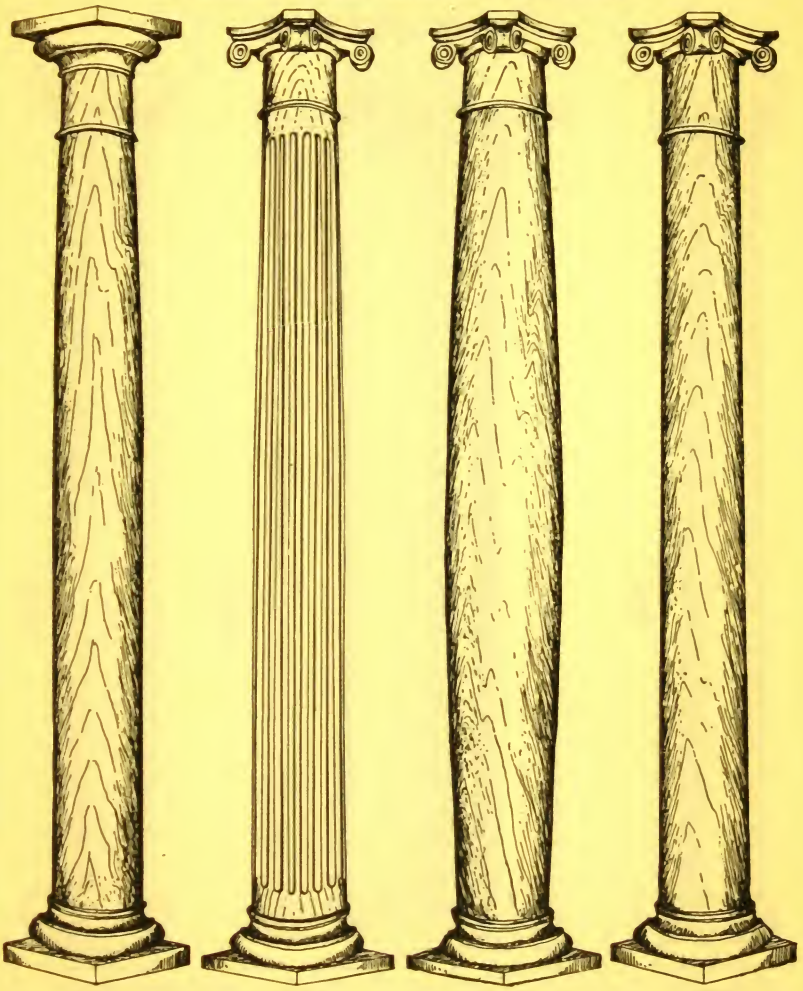

1690

Made out of thoroughly seasoned plank. Any length and size shaft desired can be used with or without pedestal; the caps and bases are gotten out separate.

In ordering give size of shaft at bottom, and bases and caps will be made to correspond in size.

TUSCAN AND IONIC COLUMNS.

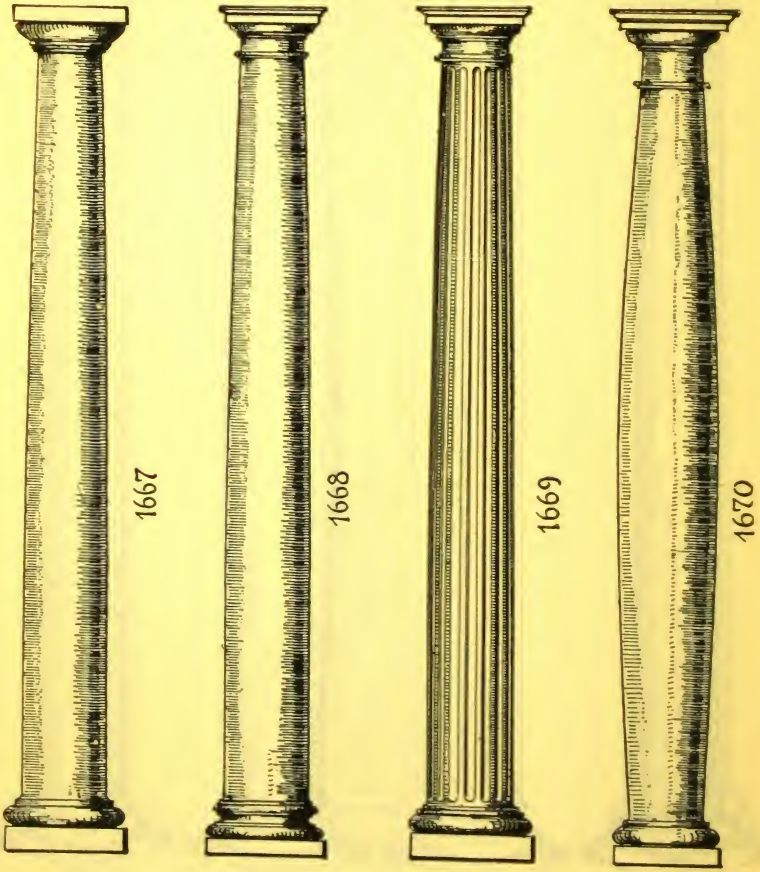

1630 1631 1632 1633

We furnish these columns in any lengths wanted, with shafts from 5 inches in diameter and upwards. Where 8 inches in diameter or under we make from solid timber with hole bored through center to prevent checking. Where over 8 inch shaft is wanted we stave up out of 3 inch kiln dried plank, which effectually prevents checking.

We use the best of glue and furnish you with a thoroughly first-class column. We work to architect's details when desired.

For prices see page 244.

TUSCAN COLUMNS.

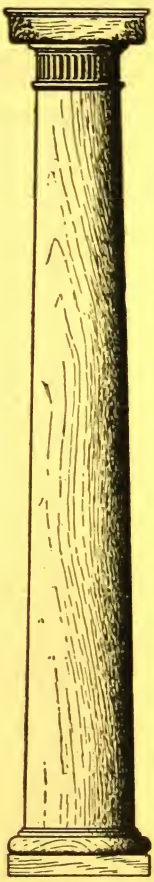

We furnish these Columns in any lengths ordered, and Shaft from 5 inches to 12 inches in diameter, with hole bored through center to prevent checking. The Cap and Base are gotten out separate. They can be used full height of porch, setting on floor or made shorter to rest on pedestals, as indicated in cuts Nos. 1671 and 1672 on page 210. For prices see page 244.

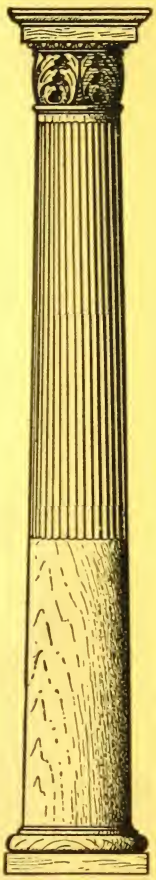

COLONIAL COLUMNS.

1685

1686

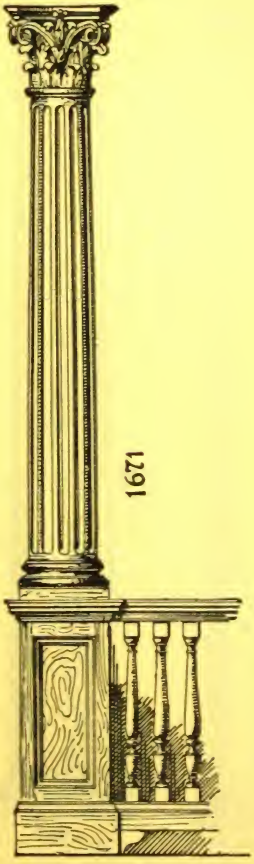

1687

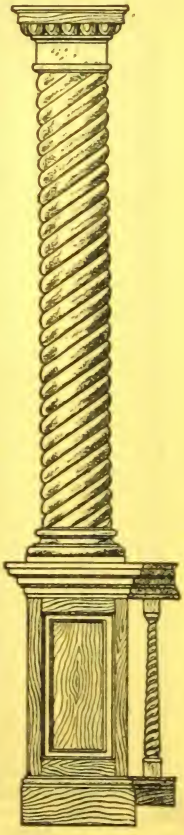

We furnish these Columns in any lengths ordered, and Shaft from 5 inches to 12 inches in diameter, with hole bored through center to prevent checking. The Cap and Base are gotten out separate. They can be used full height of porch, setting on floor or made shorter to rest on pedestals, as indicated in cuts Nos, 1671 and 1672 on the following page.

Prices on these designs proportionate with plain shafts on preceding page, with extra for carvings ordered.

FLUTE AND ROPE TURNED COLUMNS.

1671

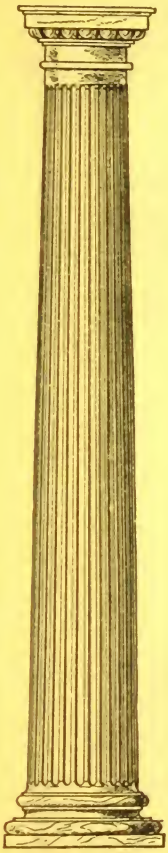

1672

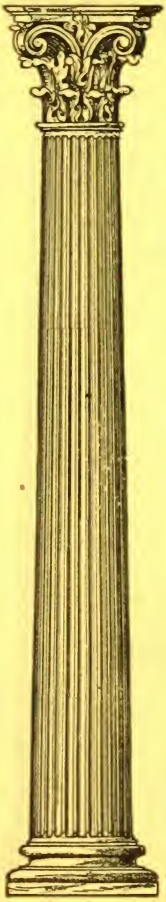

1682

The above patterns gotten out in any size wanted, although the rope turning on No. 1672 can be made only 4 ft. in length, and such styles are designed to set on pedestal, as indicated in above cut. Patterns 1673, 1674 and 1675, on page 205, made any length to suit.

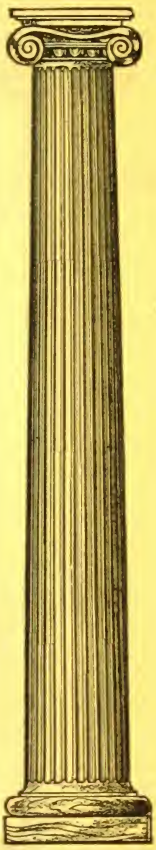

DORIC, CORINTHIAN AND IONIC COLUMNS.

1683

1671

1684

Section A.

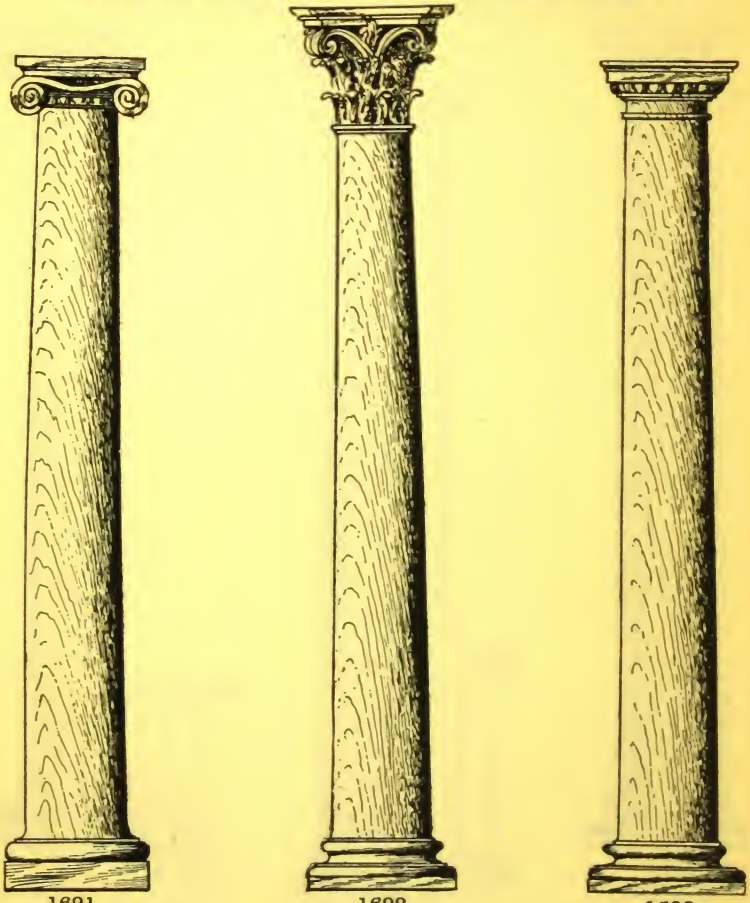

These Columns, usual size made 6 x 6, 8 x 8, 10 x 10 or 12 x 12, can be made solid like Section A, but we recommend this work, particularly if above 8-inch diameter, to be built up, as indicated by Section B.

For prices see page 245.

Section B.

DORIC, CORINTHIAN AND IONIC COLUMNS.

1691 1692 1693

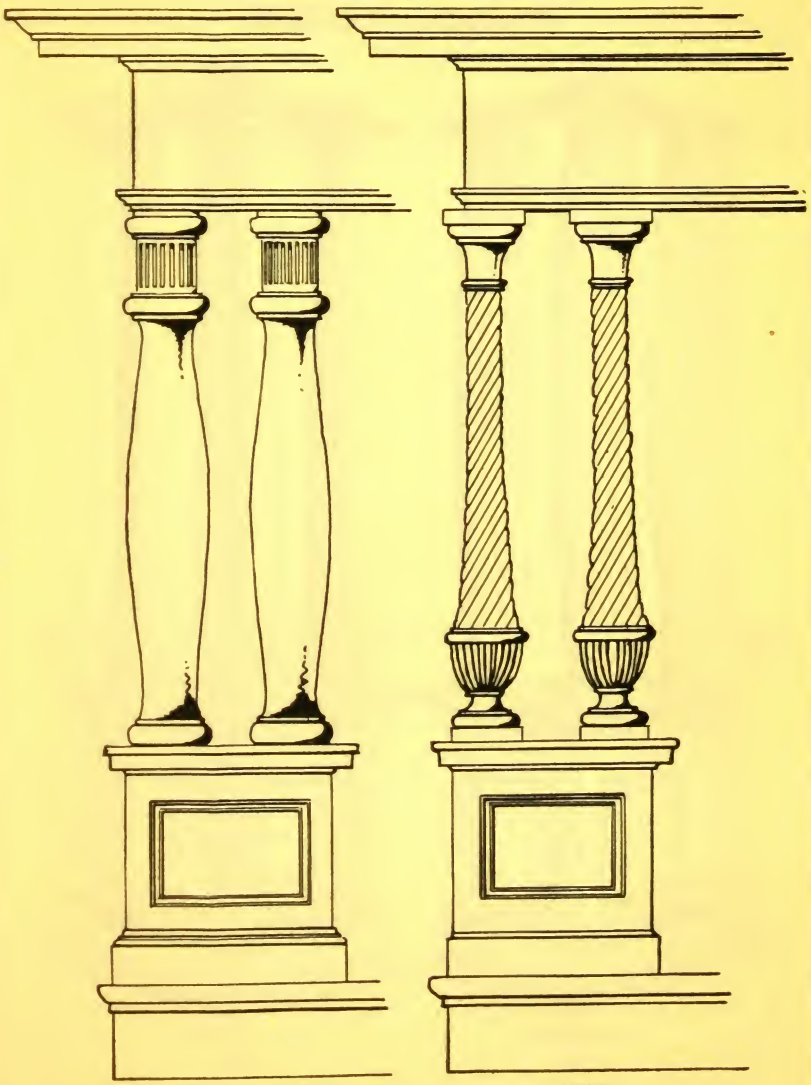

Section A.

These Columns, usual size made 6 x 6, 8 x 8, 10 x 10 or 12 x 12, can be made solid like Section A, but we recommend this work, particularly if above 8-inch diameter, to be built up, as indicated by Section B.

Section B.

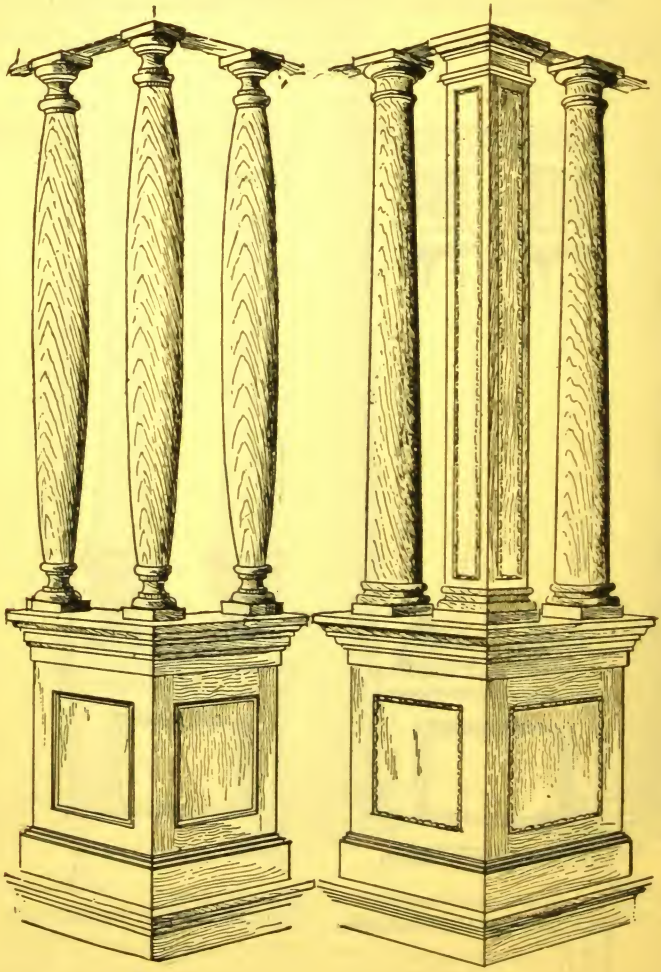

COLONIAL COLUMNS.

1698 1698½

Designs offering suggestions for high class Porch Columns resting on pedestals, high class porch work.

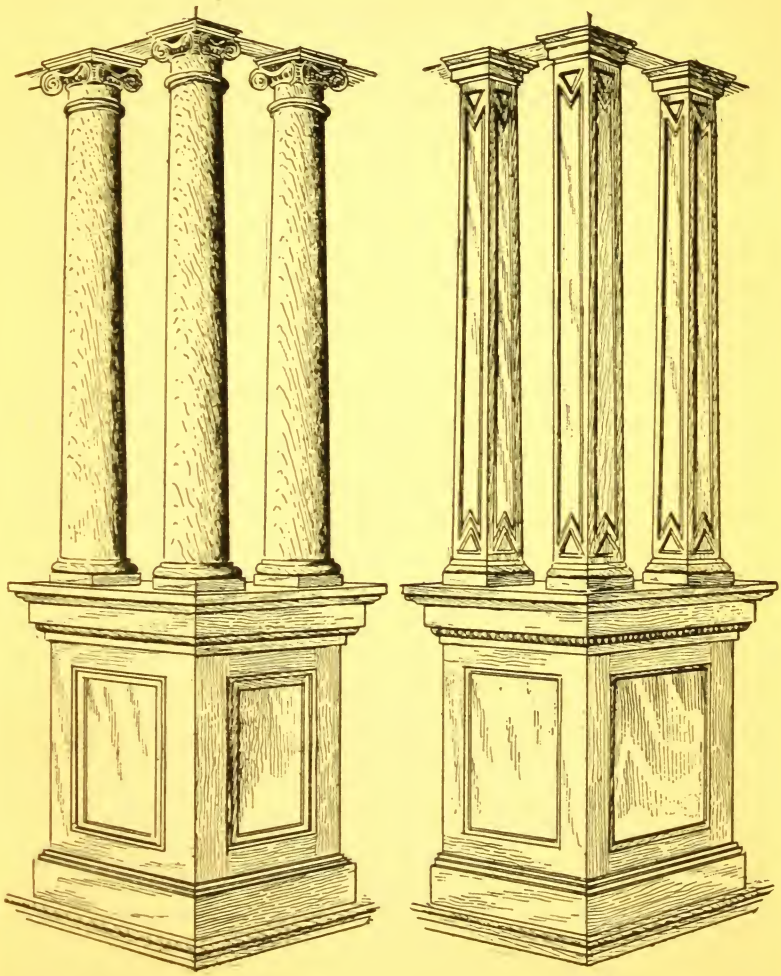

COLONIAL COLUMNS.

1694 1695

Designs offering suggestions in groups of three fancy columns setting on pedestals in high class porch work.

COLONIAL COLUMNS.

1696 1697

Designs offering suggestions in groups of three fancy columns setting on pedestals in high class porch work.

COMPOSITION CAPITALS ...AND PILASTERS

ON the following pages we show a line of composition capitals intended for either interior or exterior house decoration. These designs comprise the Corinthian, Ionic, Roman, Italian, Renaissance, etc. Each column capital has its corresponding pilaster capital, so where they are used in porch work, we can, where required, furnish pilaster capitals, having the necessary projection to fit the square pilasters that set against the wall and have them in strict conformity with each other.

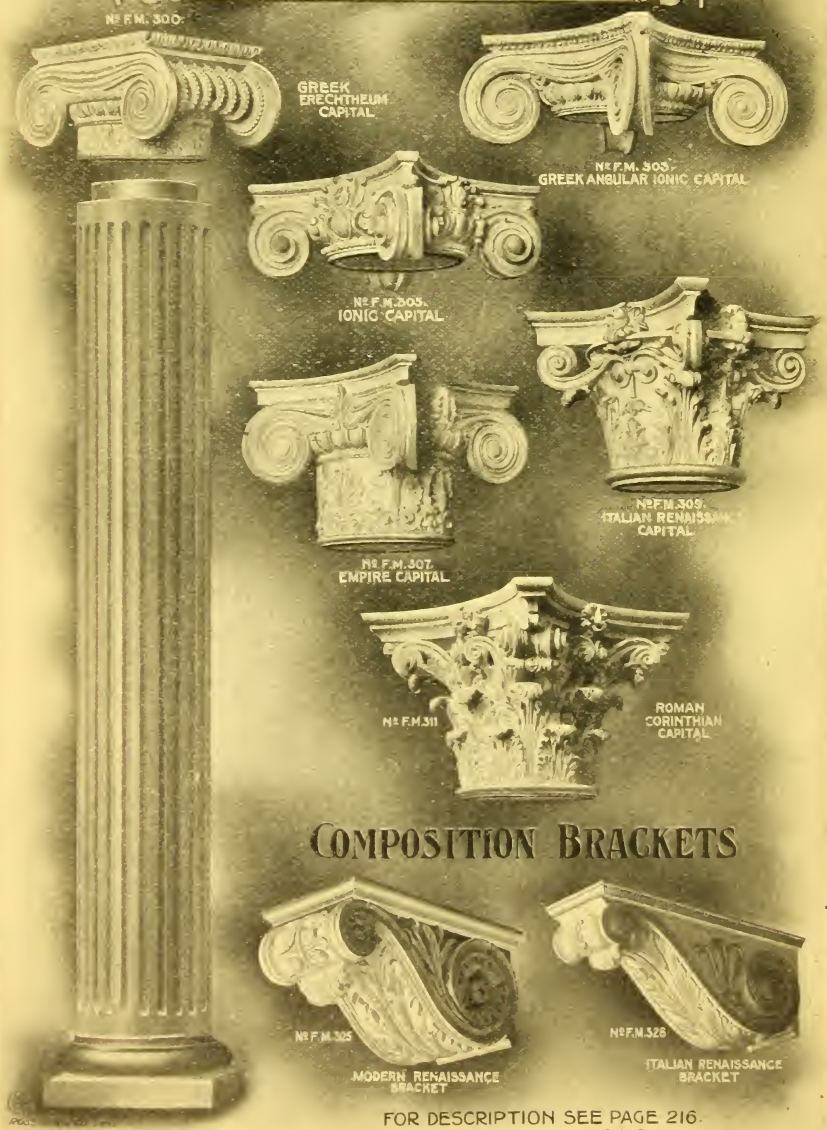

Where it is the intention to use halved round columns instead of square pilasters, we furnish halved capitals to fit. When designed for use in connection with porch or other exterior work, they are cored out in the center, and the neck of the column is turned off one inch all around and left one-fourth inch longer than the height of cap, so that the weight will rest on the shaft of the column only.

For interior use the body of the capital is made of the same kind of wood as the finish of the rooms in which they go, so only the carvings are composition, which is made to match the wood exactly. They are used over round columns or square pilasters in ornamenting Mantels, Sideboards, Grilles, Archways between rooms, etc., and cannot fail to present a pleasing, as well as an artistic effect. The painting, oil finishing or varnishing, as the case may be, whether for interior or exterior, should be done in the same manner as the woodwork. Those for interior use are made in wooden moulds, giving them the same grain as the wood they are intended to represent.

We guarantee their durability, as well as their architectural correctness, as regards both design and proportion.

18,000,000 feet of White Pine Factory Plank handled through this yard yearly for our own factory uses.

DESIGNS OF PORCHES OR VERANDAS

WE show on the following pages a variety of styles of Porches of different patterns, particularly practical, inasmuch as we confine the Porch Work shown largely to stock Newels, Balusters, Rails, Posts, etc., such as we carry in stock, and can be furnished at reasonable prices, and put in place at minimum cost by builders.

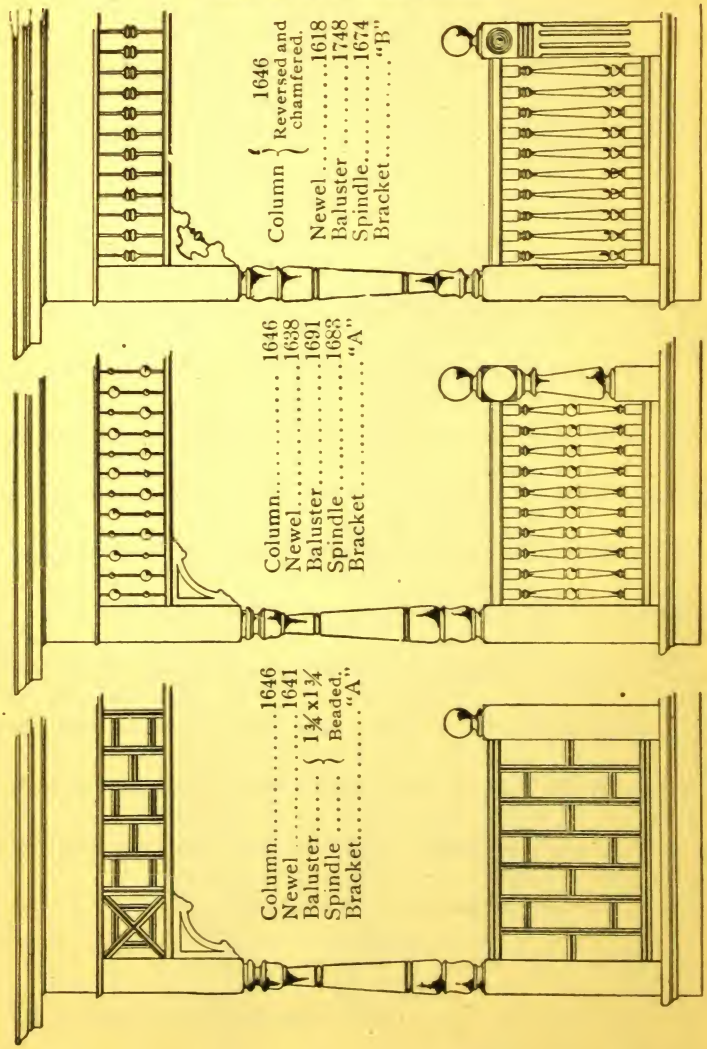

We are in a position to furnish promptly, at lowest market prices, all classes of Porch Work, and solicit inquiry and correspondence in this line of work, which we make a special feature, not only in common stock goods, but in Corinthian and Fluted Columns, Carved Capitals, etc., as illustrated.

Yours very truly,

THE FOSTER-MUNGER CO.

SUGGESTIONS IN PORCH DESIGNS.

Made up from stock patterns.

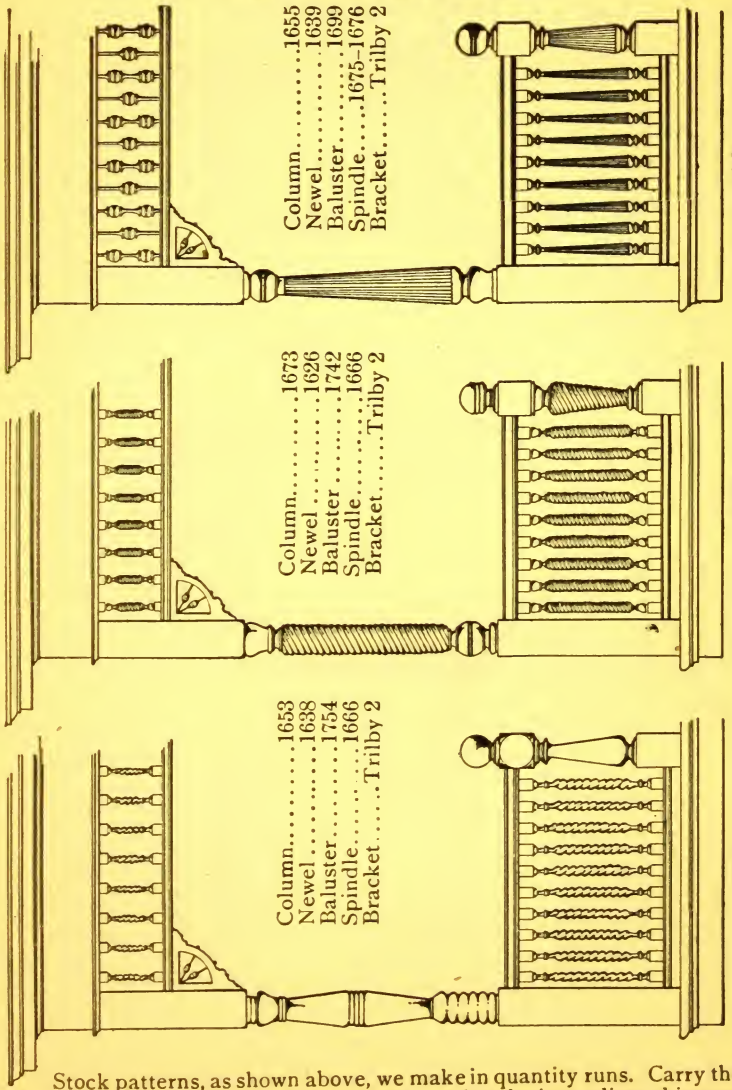

Stock patterns, as shown above, we make in quantity runs. Carry them on hand, so can furnish at very low prices, and make immediate shipment. Send for net price list.

STAIR WORK.

We give particular attention to this important branch of our business and are practical stair builders, and guarantee the material used and workmanship to be first-class. We are prepared to furnish Stairs complete, or Newels, Railings or Balusters for either plain or highly ornamented and intricate Stair Cases, at low prices.

We make Stair Work in Pine, Ash, Oak, Black Walnut, Birch, Cherry and other woods, either knock down or set in place.

When ordering Stairs note the following directions:

A.—Give height of story from floor to floor.
B.—Give width of joist in second story.
C.—Give whole width of stairs to outside of strings.
D.—Give rise and run as cut on string board.
E.—Give number of risers, treads and nosings.
F.—Give width of cylinder from face to face.
G.—Give width and style of base in hall.
H.—State which way stair turns at top.
I.—Give sketch of floor plan.

Your order should state kind of wood wanted in the different parts, and should distinctly specify:

1. NEWELS—Design, size of shaft or base, etc.
2. PLATFORM NEWELS—Design, size of shaft or base, etc., and where located. "Show by plan."
3. BALUSTERS—Design, size, whether long, short or medium. If for boxed string, state length.
4. RAILING—Design, size, number of feet of straight in pieces. Number of feet in pieces on the run.
5. CROOKS—(*a*) Easing at Newel, whether flare or straight. (*b*) Cylinder—Give plan showing number of treads involved, size of cylinder, and position of last riser. (*c*) Quarter turn—Radius of circle and position.
6. TREADS—Length, width and thickness, which end returned, if any.
7. RISERS—Length, width and thickness.

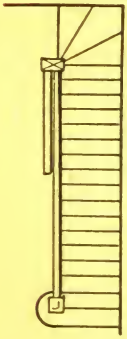

We will furnish you, upon request, plans and estimates of any style of work illustrated in any book or according to architect's plans.

NOTICE.

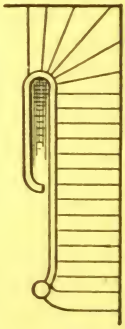

On the following pages we show many new and modern styles in Stair Work, such as we have recently executed, and call particular attention to new cuts shown.

HARDWOOD MANTELS

ON the following pages we show a complete line of Hardwood Mantels, modern designs, at lowest wholesale prices, and workmanship the best that can be had. We carry these Mantels in stock as described in our catalogue, mostly in quarter-sawed Oak, ready for finishing. Also in Red Birch and in plain Birch suitable for staining, to imitate either Cherry or Mahogany.

Our price on the Mantels, as you will notice under the following cuts, includes everything complete as shown, and the woodwork finished ready to set up, excepting the thirty necessary fire brick. These can usually be bought at home for less than the freight would cost from Chicago, and it is not customary to ship the thirty fire brick with the Mantel, unless specially requested in ordering.

An Oak Mantel can be treated Medium, Antique or Old English, or finished in Oil Natural, which is our customary way of finishing, unless specified otherwise; or where sample of the room finish is sent us, we can treat the Mantel accordingly.

Any of these designs can be furnished in Curly Birch at an advance of about 15 per cent., in Bird's Eye Maple at an advance of 30 per cent., or in white and gold at an advance of 30 per cent. For genuine solid Cherry, over and above the price of Birch finished to imitate Cherry, the advance cost is about 15 per cent. The mantels are made with adjustable wall plates to fit chimney breast, from 4 feet 10 inches wide up to 5 feet 4 inches wide.

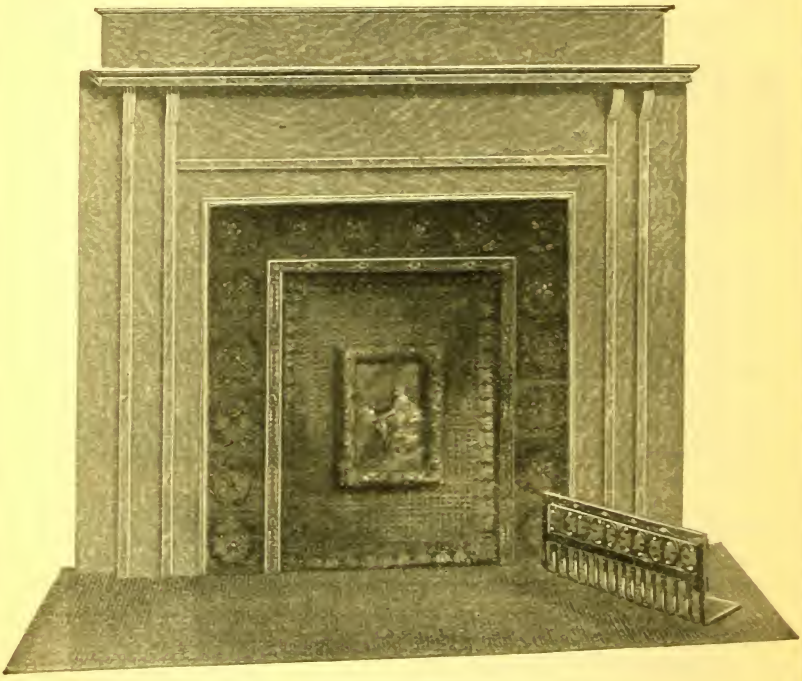

The enamel and embossed tiling, as shown in cuts on face and hearth, can be changed about and substituted in the different Mantels, and in most cases at the same prices quoted. There are different shades and tints of tiling, and, if left to us, we select those which harmonize best with the wood selected, or, if desired, would forward samples of tiling for your own selection.

A Mantel boxed for shipment weighs about 300 pounds. We box each shipment securely, and, as stated above, our price includes everything as shown in the picture ready to put in place, excepting the thirty necessary fire brick.

In ordering always give width of chimney breast, and the kind of wood and finish wanted.

THE FOSTER-MUNGER CO.

HARDWOOD MANTELS.

Mantel Design F. M. 31.

(*A*) Price, as shown above, metal facing, omitting grate, tile hearth and summer front.....$12.80

Prices include the woodwork finished, French bevel mirror plate, enamel tile for face and hearth, grate, damper, blower, arch bars, brass tile frame, etc., complete ready to set up. The design is entirely new; has square fluted columns and two large shelves, and is appropriate for any room. Prices are based on quarter-sawed Oak, Red Birch or Birch stained to imitate Cherry or Mahogany.

Prices subject to Discount. See page 331.

HARDWOOD MANTELS.

Mantel Design F. M. 53.

(*A*) Price, as shown above, substituting Club House grate for burning coal or wood (like as shown in designs F. M. 46 and F. M. 48).....$44.00
(*B*) Price, as shown above, including double-draft globe grate, coal burner..... 49.50

Height of mantel 7 feet 1 inch. French bevel mirror plate 16x36 inches. Tile opening 42x49 inches. The price includes woodwork finished, enamel tile for face and hearth, grate, damper, blower, arch bars, brass tile frame, etc., complete ready to set up. This mantel is also made with square mirror, without extra charge. The fireplace, as shown above, is our best double-draft globe grate for burning hard coal. It is all in one piece. Has dumper and shaking attachment, and two dampers operated from the front of the grate. It forms a complete fireplace in itself. Any ordinary workman can put it into the mantel. Prices are based on quarter-sawed Oak and Red Birch or Birch stained to imitate Cherry or Mahogany.

Prices subject to Discount. See page 331.

HARDWOOD MANTELS.

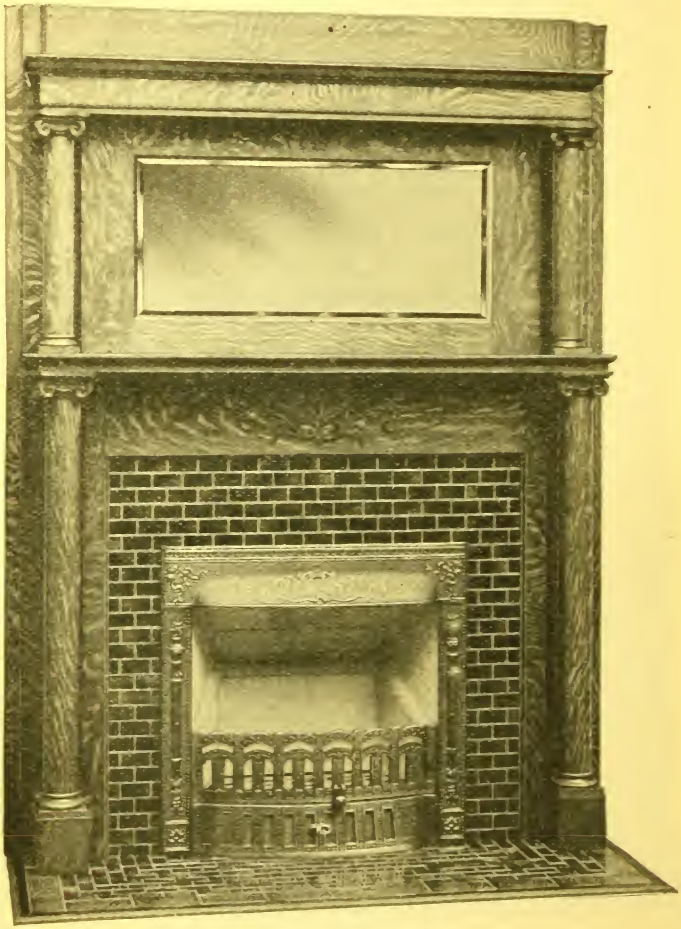

Mantel Design F. M. 54.

(*A*) Price, as shown above, substituting Club House grate for burning coal or wood (like as shown in designs F. M. 46 and F. M. 48).....$48.00
(*B*) Price, as shown above, including double-draft globe grate, coal burner..... 53.00

Height of mantel 7 feet 1 inch. French bevel mirror plate 18x40 inches. Tile opening 41½x41¾ inches. We recommend highly this style of double-draft grate, especially for burning hard coal; it has two dampers, shaker bottom and will not clog, and a firepot lined with extra strong fire brick. It is a complete fireplace in itself. Any ordinary workman can fit it in the mantel. Our price is based on quarter-sawed Oak, natural or antique finish, Red Birch, natural finish, or Birch stained to imitate Cherry or Mahogany.

Prices subject to Discount. See page 331.

HARDWOOD MANTELS.

Mantel Design F. M. 55.

(*A*) Price as shown above, substituting Club House grate for burning wood or coal (like shown in designs F. M. 46 and 48)..... $48.00

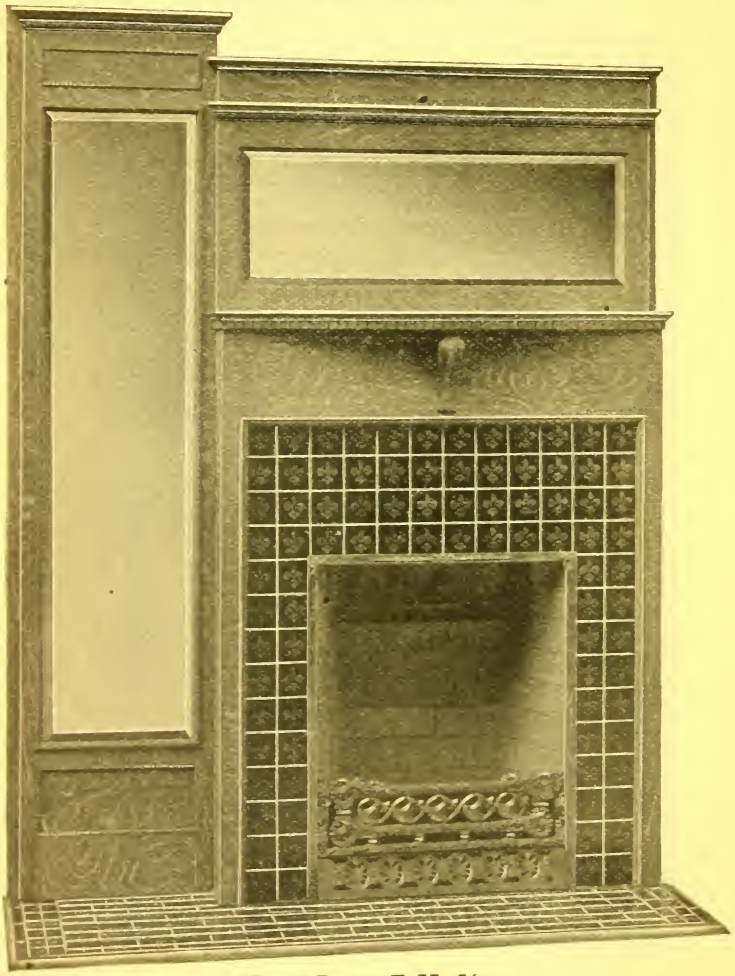

(*B*) Price as shown above, including double draft Globe grate as shown, coal burner..... 52 50

Height of mantel 7 feet. French bevel mirror plate 16x36 inches. Tile opening 42x39 inches. Price includes woodwork finished, French bevel mirror plate, enamel tile for face and hearth, grate, damper, blower, arch bars, brass tile frame, etc., complete ready to set up. The columns are veneered and highly polished.

Our price is based on quarter-sawed Oak, natural or antique finish, Red Birch natural finish, or Birch stained to imitate Cherry or Mahogany.

Prices subject to discount. See page 331.

HARDWOOD MANTELS.

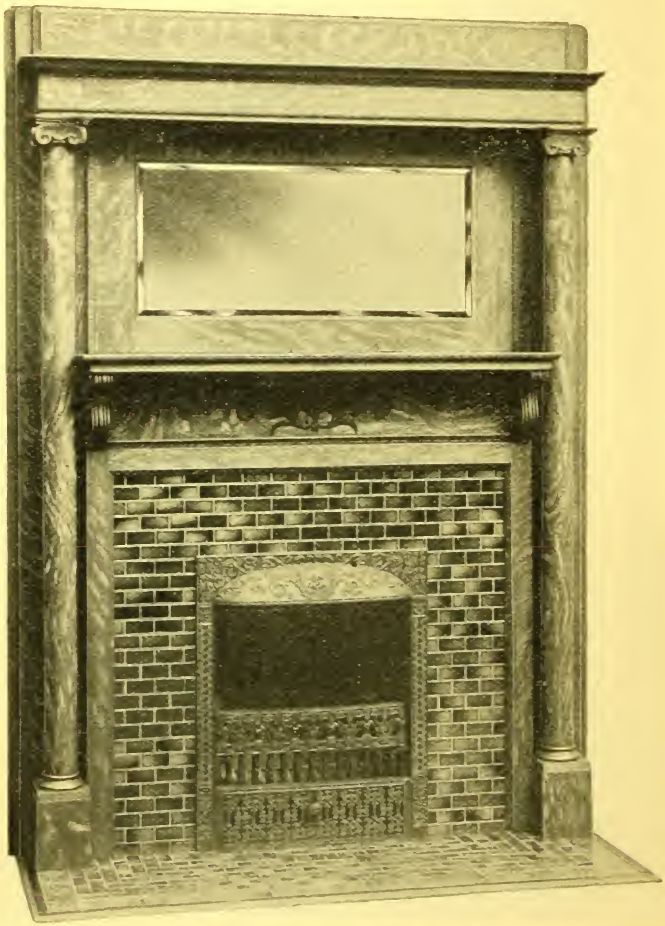

Mantel Design F. M. 56.

(*A*) Price, as shown above, Club House grate for burning coal or wood.....$52.75
(*B*) Price, as shown above, substituting gas burning grate (like design F. M. 63).. 55.00

Height of mantel 6 feet 7 inches. Heavy bevel plate mirrors; one 14x56 inches, and one 12x36 inches. Tile opening 36x42 inches. Price includes woodwork finished, bevel plate mirrors, enamel tile for face and hearth, grate, damper, blower, arch bars, brass tile frame, etc., complete ready to set up. Prices are based on quarter-sawed Oak and Red Birch or Birch stained to imitate Cherry or Mahogany. The above design is especially adapted for bedrooms and dressing-rooms.

Prices subject to Discount. See page 331.

HARDWOOD MANTELS.

Mantel Design F. M. 57.

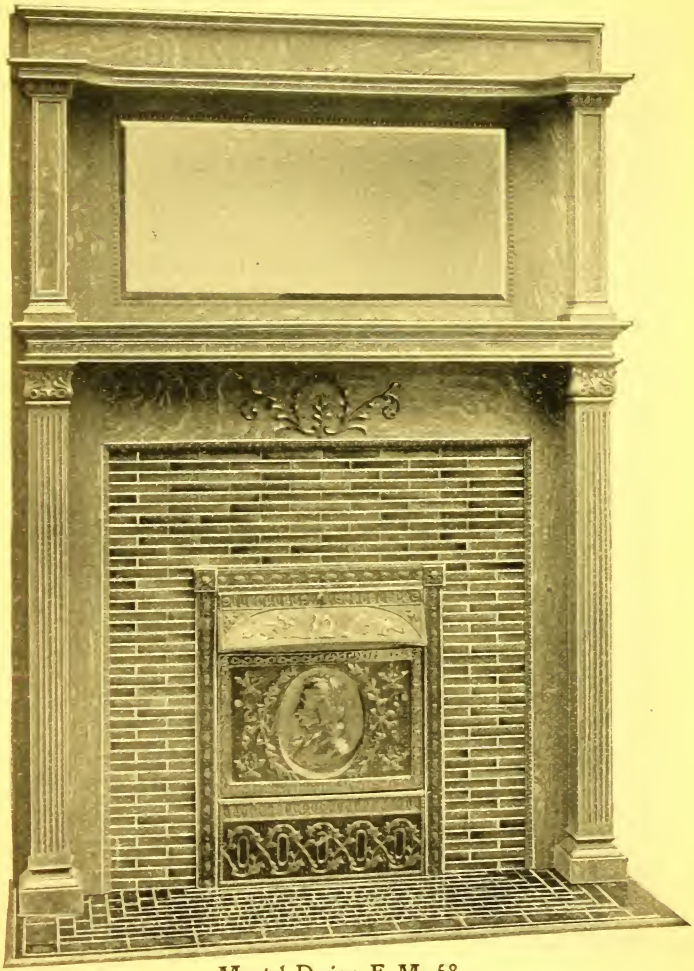

(*A*) Price as shown, with grate for burning wood or coal, as shown above.....$48.00

(*B*) Price as shown, substituting Club House grate, for burning wood or coal (like shown in designs F. M. 46 and F. M. 48)..... 49.50

Height of mantel 7 feet 2 inches, French bevel mirror plate 16x36 inches. Tile opening 42x39 inches. Price includes woodwork finished, French bevel mirror plate, enamel tile for face and hearth, grate, damper, blower, arch bars, brass tile frame, etc., complete ready to set up. The columns are veneered and highly polished.

Prices are based on quarter-sawed Oak or Birch; the Oak stained to any color, such as golden oak, English oak, etc., and Birch to mahogany color, etc.

HARDWOOD MANTELS.

Mantel Design F. M. 58.

(*A*) Price, as shown above, without summer front and substituting Club House grate for burning coal or wood (like as shown in designs F. M. 46 and F. M. 48) .$53.00

(*B*) Price, as shown above, including asbestos gas burning grate and ornamental summer front, as shown..... 56.00

Height of mantel 7 feet 1 inch. French bevel mirror plate 18x40 inches. Tile opening 42x42 inches. Price includes woodwork finished, French bevel mirror, enamel tile for face and hearth, grate, damper, blower, arch bars, brass tile frame, etc., complete ready to set up. Our gas grates are made to use with all kinds of gas, natural, water, and coal gas. The grate is sent complete ready to connect to supply pipe, including burners, reflectors, air mixer, etc. The prices are based on quarter-sawed Oak and Red Birch or Birch stained to imitate Cherry or Mahogany.

Prices subject to Discount. See page 331.

HARDWOOD MANTELS.

Mantel Design F. M. 59.

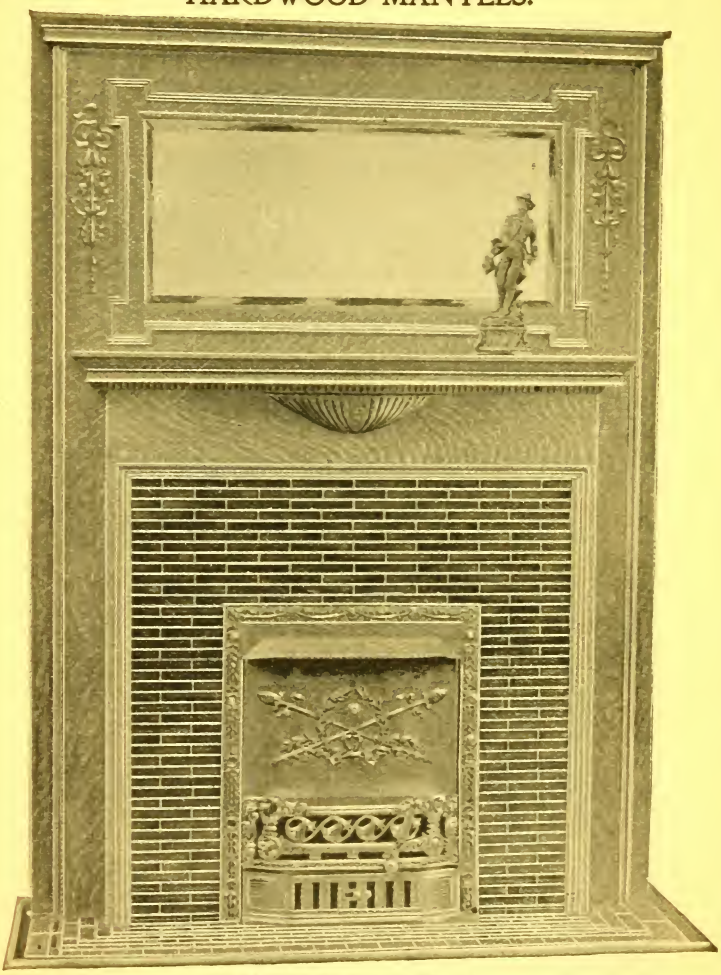

(*A*) Price as shown, with grate for burning wood or coal, as shown above..... $53.00

Height of mantel 7 feet 4 inches. French bevel mirror plate 18x36 inches. Tile opening 42x39 inches. Price includes woodwork finished, French bevel mirror plate, enamel tile for face and hearth, grate, damper, blower, arch bars, brass tile frame, etc., complete ready to set up. The columns are veneered and highly polished

Our price is based on quarter-sawed Oak, natural or antique finish, Red Birch natural finish, or Birch stained to imitate cherry or mahogany.

Prices subject to discount. See page 331.

HARDWOOD MANTELS.

Mantel Design F. M. 60.

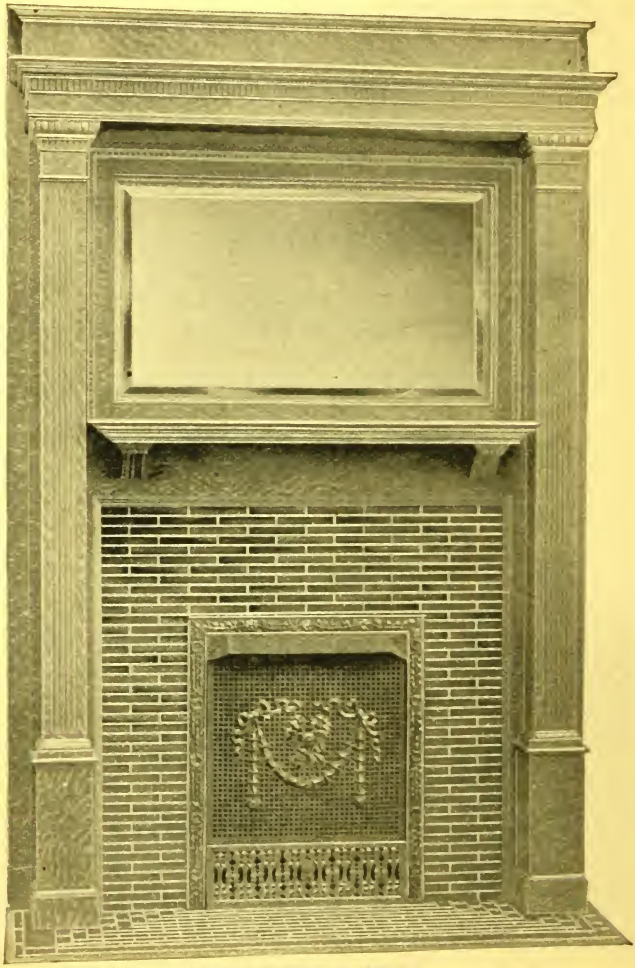

(*A*) Price, as shown above, with Club House grate for burning coal or wood (like as shown in designs F. M. 46 and F. M. 48)..... $53.00

(*B*) Price, as shown above, including double-draft globe grate, coal burner and ornamental summer front, as shown..... 57.50

Height of mantel 7 feet 1 inch. French bevel mirror plate 18x40 inches. Tile opening 42x42 inches. Our double-draft globe grate is made especially for burning hard coal; the two draft dampers are operated by neat knobs from the face of grate, and the firepot is lined with extra strong fire brick. This is a high-class grate, and is equal to any other style. These prices are based on quarter-sawed Oak, Red Birch or Birch finished to imitate Cherry or Mahogany.

Prices subject to Discount. See page 331.

HARDWOOD MANTELS.

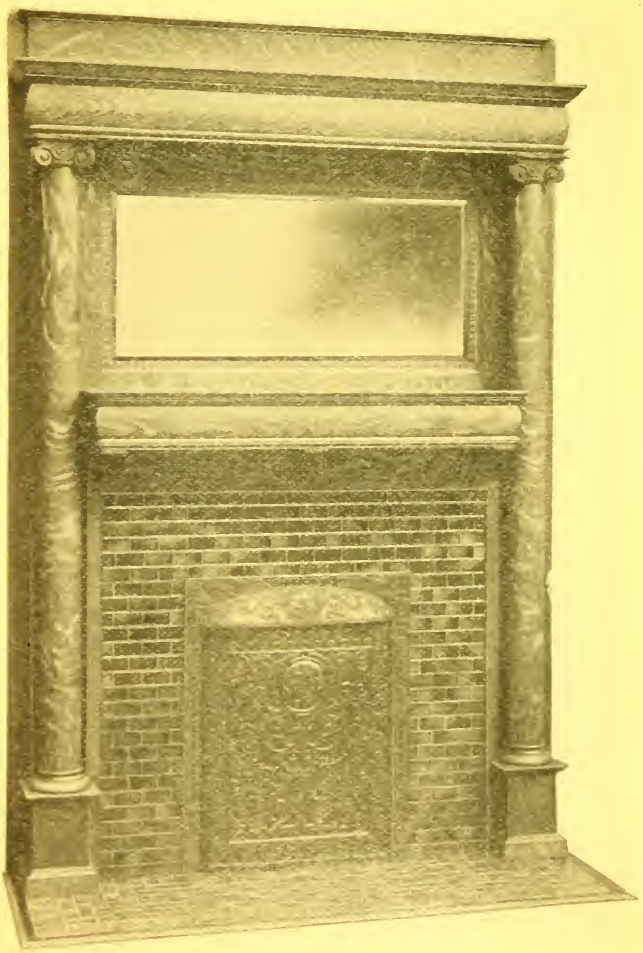

Mantel Design F. M. 61.

(*A*) Price, as shown above, with summer front and substituting Club House grate for burning coal or wood (like shown in designs F. M. 46 and F. M. 48)..$59.00
(*B*) Price, as shown above, with summer front and grate (like shown in design F. M. 50), for burning coal or wood..... 59.00

Height of mantel, 7 feet 8 inches. French bevel mirror plate 22x38 inches. Tile opening 42x42 inches. These prices include woodwork finished, French bevel mirror, enamel tile for face and hearth, grate, damper, blower, arch bars, brass tile frame, etc., complete ready to set up. These prices are based on quarter-sawed Oak, natural or antique finish. Red Birch or Birch stained to imitate Cherry or Mahogany.

Prices subject to Discount. See page 331.

HARDWOOD MANTELS.

Mantel Design F. M. 62.

(*A*) Price as shown, including grate as shown in design No. F. M. 59, for burning wood or coal..... $59 50

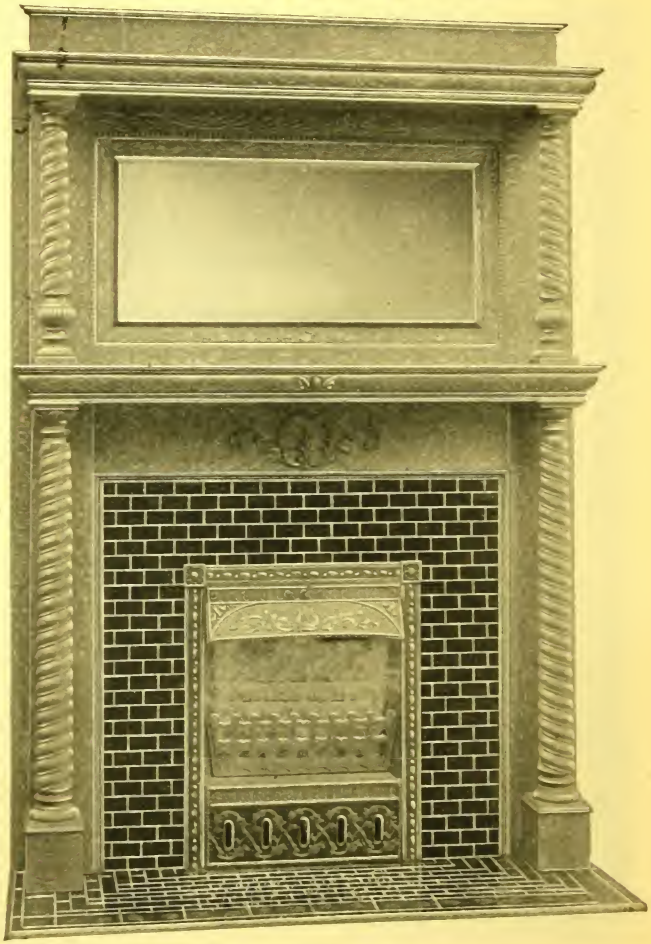

(*B*) Price as shown, substituting Club House grate for burning wood or coal (like shown in design F. M. 46 and F. M. 43..... 59 00

Height of mantel 7 feet 4 inches. French bevel mirror plate 18x40 inches. Tile opening 42x39 inches. Price includes wood work finished, French bevel mirror plate, enamel tile for face and hearth, grate, damper, blower, arch bars, brass tile frame, etc., complete ready to set up. The columns are veneered and highly polished.

Prices are based on quarter-sawed Oak or Birch stained to any color, such as golden oak, English oak, mahogany color, etc.

Prices subject to discount. See page 331.

HARDWOOD MANTELS.

Directions for Laying Tiles and Setting Mantels.

We give below a few suggestions which will assist our trade to properly lay tiles and set mantels.

A solid foundation on which to lay tiles is the first consideration—the foundation or bed for tile on floor should be of concrete; one part Portland cement and three parts sand. Be careful that the floor on which the concrete foundation and tiles are intended to be laid is substantial enough to carry the weight. Lay out temporarily a part of the tile, using sketch of pattern which you find in box with tile. Do not try to cover a larger space than shown on diagram.

For imbedding tiles use one part of good Portland cement to two parts of clean sand, and always soak the tiles in clean water, say ten minutes before using them. Allow tiles to thoroughly dry out, then fasten up the mantel.

When possible have chimney 5 feet wide, fire place 26 inches wide by 30 inches high, and 10 to 12 inches deep, and the space for concrete under hearth 4 or 5 inches deep.

PLATE AND WINDOW GLASS

We handle and carry in stock a complete line of all sizes, and the best brands of American Window and Plate Glass, and fill orders of single lights, box lots and car lots, at lowest market prices.

We issue a separate Window and Plate Glass Catalogue, and will be pleased to mail you a copy on application, while on the following pages we show the most complete line and most modern designs in fancy Glass, Leaded Art Glass, Church Glass, etc., ever published, and can save you money on your purchases in this line.

..WIRE GLASS..

Wire Glass made by the new and improved process makes the very best skylights known, and is strongly recommended for the following reasons:

That having a fine wire imbedded midway between its surfaces, the glass will not drop out when, by any accident, it becomes cracked.

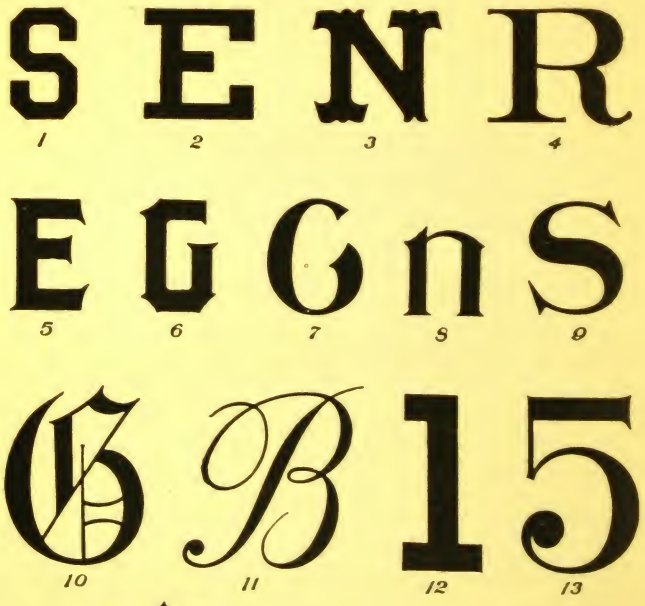

Wire Glass requires no netting as protection from falling fragments. It may crack but cannot fall down, and need not necessarily be replaced.

It is also practically Fire Proof, Burglar Proof and Stone Proof, and withal is easier cleaned than when netting is used.

Wire Glass is either Ribbed or Rough Rolled Glass, having wire netting imbedded in its centre during the process of manufacture.

Skylight Glass wired in this manner possesses the combined strength of the wire netting and the glass plate, and the wire being imbedded in the glass is protected from rust or corrosion.

DESIGNS OF LETTERS, NUMBERS AND MONOGRAMS

MONOGRAM F.M.CO.

MONOGRAM G.N.M.

Any of the above Letters, Names or Monograms can be chipped or ground in plain glass, ground in chipped, or can be left clear in chipped or ground. Select style of Lettering wanted from above.

See pages 430 and 431 for designs of glass with lettering.

THE FOSTER MUNGER CO.
CHICAGO.

...TO THE TRADE...

WE CALL particular attention to the great variety of modern style Church Windows shown on the following pages, from the very cheapest patterns in this line of work up to the most elaborate.

We manufacture extensively in leaded art church glass, and can save you money on your purchases in this line of work, over and above prices secured from any of the specialty houses in this particular branch. Can furnish you the best leaded art church glass that can be made.

The point is, we make up this line of goods on a reasonably profitable basis, the same as other standard goods in our line, cutting down the fancy prices ordinarily charged by our competitors.

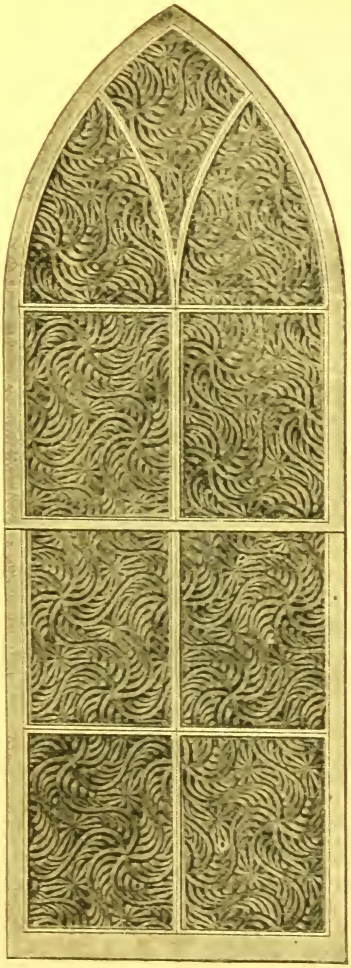

In Church Windows you can always rely on getting better work for the same money, and the same work for less money, from us than from any other maker of fancy glass. Aside from the variety of patterns shown in our book, we shall be pleased at any time during the season to submit square foot prices on any special designs that may be wanted.

Soliciting your inquiries in this line, we are,

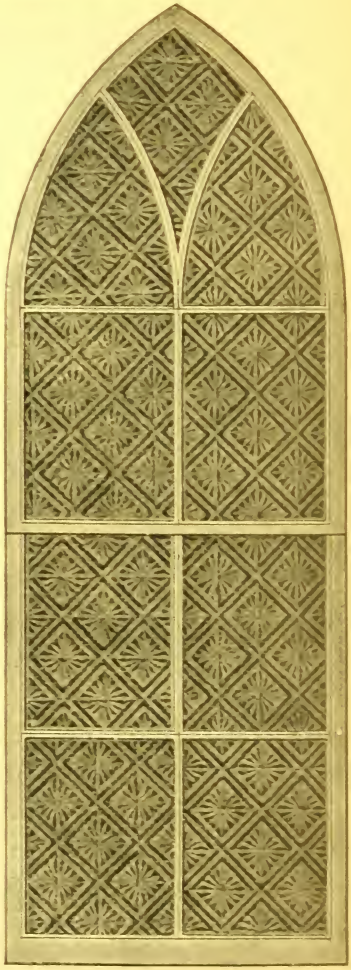

Yours very truly,

THE FOSTER-MUNGER CO.

TESTIMONIALS—Continued.

401 TO 429 NORTH JACKSON ST.

SMITH & ADAMS. LUMBER, LATH AND SASH & DOORS.

Jackson, Mich. Jan. 17, 1898.

The Foster-Munger Co.,
Chicago, Ills.

Gentlemen:-

It gives us pleasure to say that the large Gothic Church Windows furnished us by you last year for St. John's Church of this city, gave entire satisfaction. They were very large and of intricate design and were made strictly according to the drawings, even to the most minute details. Every one connected with the Church is more than pleased with the windows, and will add that they are considered the finest Church Windows in the City.

Yours very truly,

SMITH & ADAMS.

ELKHORN BAPTIST CHURCH
REV. C. C. WILLETT, D.D., PASTOR
E. M. WAFFLE, CLERK

Elkhorn, Wis. Dec. 18, 1897.

The Foster-Munger Co.,
Chicago, Ills.

Gentlemen:-

It affords me great pleasure to assure you that the Stained Glass Windows put into our Church recently by you, have given the greatest possible satisfaction to all concerned. The memorial windows are particularly fine, and continue to be the objects of great admiration to all who behold them. The blending of color and the quiet pleasing harmony is perfect.

Yours very truly,

CHAS. WILLETT, Pastor

FARMER'S LUMBER COMPANY,
N. J. HOUSE, President.
EDGAR DEAN, Manager.

Carbon P. O. Feb. 1, 1898.

Messrs. Foster-Munger Co.,
Chicago, Ills.

Gentlemen:-

We are pleased to inform you that the M. E. Church people of this city are greatly pleased with the windows we got for them from your house. The designs, shading and blending of the colored glass, is everything that can be desired, and has been admired by all. We are pleased to recommend you to any one wanting a job of fine glass work.

Yours truly,
EDGAR DEAN, Manager,
Farmers' Lumber Co.

W. A. & D. J. BEER,
DEALER IN
Gent's Furnishing Goods, Groceries and Shoes,
Rough and Dressed Lumber, Lath, Shingles, Sash and Doors.

Callensburg, Pa., Feb. 10, 1898.

The Foster-Munger Co.,
Chicago, Ills.

Gentlemen:-

The Church windows you shipped us recently are now all in place in the new Church, twenty-three in all, and our people are highly pleased with the job. The twenty-four ruby tablets with inscriptions worked in the bottom of this assorted colored border church windows gives an excellent effect, and the job has been pronounced a first-class one by all who have seen the windows in place. The work is entirely satisfactory to us and the Church congregation.

Yours very truly,

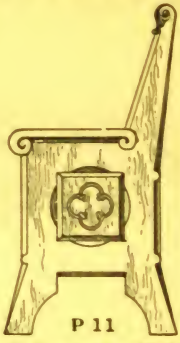

W. A. & D. J. BEER.

To parties desiring something special in Church Windows and Glass we will submit special designs.

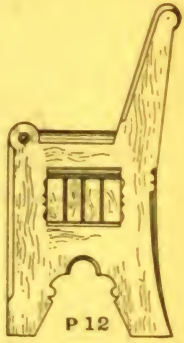

PEW ENDS FOR CHURCHES.

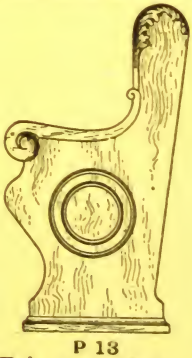

P 10
Price each, $2.30

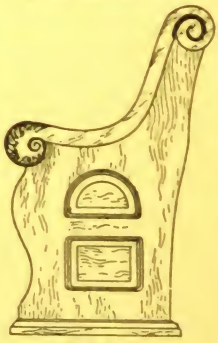

P 11
Price each, $2.15

P 12

THE FOSTER MUNGER CO.
CHICAGO.

Made of Quarter-sawed White Oak, Walnut or Cherry. Quartered White Oak the standard.

This floor covering or carpet, made of hardwood strips 1¼ inches wide, glued on heavy cotton cloth, makes an inexpensive, healthful floor, insect-proof and easily kept clean. In laying, can be cut to fit any room, and is used in connection with strip borders, making a handsome, stylish floor, as cheap as good carpeting. Any carpenter can lay wood carpet.

How to Lay Wood Carpet.

Use 1¼-in. No. 15 Wire Brads, driving 2 in each strip near edge and in rows 9 in. apart. If properly braded will last as long as the house; and with proper care, which is less than sweeping carpets, will retain original beauty of finish indefinitely.

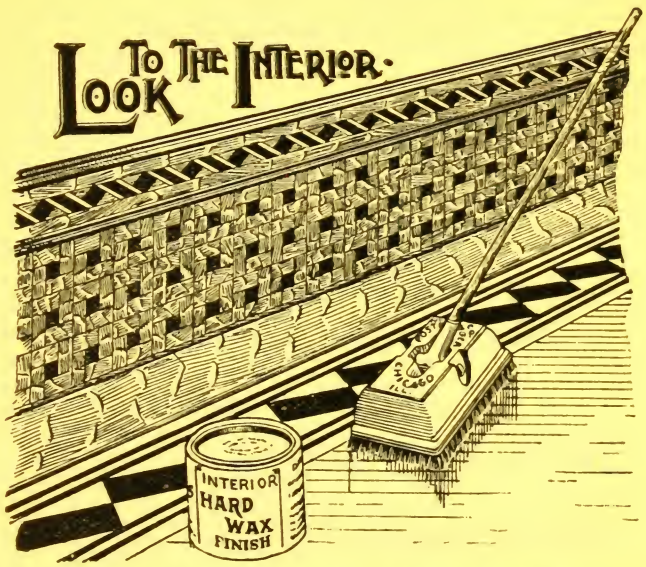

Prices Wood Carpet Made 5-16 Inch Thick.

Price Per Yard.	Width.	Price.	Width.	Price.

Prices uncut, lineal yard. Above prices subject to discount.

See fancy strip borders, fancy centers and floor designs complete, on the following pages.

THE FOSTER MUNGER CO.
CHICAGO.

HOW TO FINISH HARDWOOD FLOORS.

In the finishing of wood carpet or hardwood floors it is not necessary that the material we suggest be used; that is, you could treat the finishing of your floor as you would any other hardwood floor, but the finishing materials we can furnish you are the best that can be had and are low in price. Our larger interest in the flooring itself is a guarantee that the finishes we furnish are the best that can possibly be offered.

PRICE LIST—Finishing Material.

Paste Wood Filler in cans, 2, 5 and 10 lb., per lb.		$0.20
Parquet Lac	Quarts	1.05
	Half Gallons	1.85
	Gallons	3.70
"Interior" Hard Wax, per lb		.60
Weigted Floor Brushes		4.00

Subject to same discount as wood carpet.

In finishing new floors the wood should first be filled. Use the weighted brush for sanding before filling, then a coat of parquet lac applied after filling and before waxing. In polishing floors apply the wax with a cloth in hand, spreading it out thin in all directions and leave it dry, which will take about a half hour. Then take a stiff brush (one of our weighted brushes) and rub the floor across first and with the grain afterwards. Place a piece of dry soft cloth (felt or carpet) under the brush to give the finishing gloss—do not apply too much wax; it should be rubbed out in all directions before polishing.

To take care of old floors, for ordinary wiping use a brush or broom with a piece of cotton flannel pinned over it—an occasional rubbing with the weighted brush will keep a glossy surface to the floor. Soap should never be used, and the parts of the floor which have the most wear should be touched up occasionally with wax to keep it in good condition. Never use oil of any kind on floor; it is sure in time to darken the surface, and the beauty of the floor is in the natural color of the wood

One pound of wax will cover 200 square feet, and one quart of parquet lac will cover 100 square feet.

BUILDING PAPERS.

RED ROSIN SIZED SHEATHING
The "A"
500 square feet in roll.
36 inches wide.
Rolls weigh about 28 lbs.
The Foster-Munger Co.

This is a filled THREE PLY Red Rosin Sized Sheathing, manufactured from first-class stock, of good color, sized with the best grade of rosin sizing, is nearly waterproof and will not rot. Is used generally for sheathing purposes, but can be used between floors and sides of buildings.

RED ROSIN SIZED SHEATHING
The "B"
500 square feet in roll.
36 inches wide.
Rolls weigh about 22 lbs.
The Foster-Munger Co.

A Red Rosin Sized Sheathing made of one SOLID stock of selected paper, thoroughly rosin sized, smooth finish, strong and will not rot. Used more generally for sheathing purposes.

RED ROSIN SIZED SHEATHING
The "C"
500 square feet in roll.
36 inches wide.
Rolls weigh about 16 lbs.
The Foster-Munger Co.

A SOLID Red Rosin Sized Sheathing made of the same stock as our **"The B"** only lighter in weight. Is used for sheathing purposes only. Of good color and will not shrink or mold.

PLAIN STRAW BOARD
Put up in rolls weighing 50 to 100 pounds.
36 inches wide.
About 14 pounds to 100 square feet.
The Foster-Munger Co.

This Paper is made of Straw pulp and is a plain uncoated building paper. Used for sheathing purposes only.

TARRED BOARD
32 inches wide.
16 pounds to 100 square feet.
60 to 75 pounds per roll.
Unrolls freely.
The Foster-Munger Co.

Tarred Board is plain Straw Board saturated in coal tar, making it vermin and waterproof and prevents rotting. Used for sheathing only.

TARRED FELTS
32 inches wide.
About 50 pounds to the roll.
The Foster-Munger Co.

Our Tarred Felts are made of wool felt saturated in coal tar, are absolutely waterproof and afford the greatest protection against frost and dampness, made in three grades, Nos. 1, 2 and 3.
No. 1. For roofing only.
No. 2. For gravel or composition roofs and lining houses.
No. 3. For lining and sheathing.

SLATERS' FELT
Put up in rolls containing 500 square feet.
32 inches wide.
The Foster-Munger Co.

Is a light weight Wool Felt saturated in coal tar, absolutely waterproof. Used extensively for lining under slate, tin and shingles, and makes a good light weight sheathing.

INODOROUS BOARD
36 inches wide.
Rolls weigh 50 to 90 pounds.
16 pounds to 100 square feet.
The Foster-Munger Co.

Is a plain Straw Board Paper heavily saturated with the best rosin oil, almost absolutely waterproof, is very heavy, bends without cracking, and is without exception the best paper for sheathing purposes on the market.

No. 1 Neponset Red Rope ROOFING FABRIC
Rolls of 250 and 500 square feet.
36 inches wide.
The Foster-Munger Co.

For roofing and sheathing, is a clean rope stock of great flexibility, absolutely waterproof, odorless and air-tight, does not shrink or waste. Used under clapboard or shingles, iron, tin and slate roofs, also makes cheap roofing for sheds, poultry houses, etc.

We furnish building papers at lowest market price at time order is received. The fluctuations of the market make it impractical to price in this catalogue.

BUILDING PAPERS.

BLUE PLASTER BOARD
Rolls contain 500 square feet.
36 inches wide.
The Foster-Munger Co.

Made of selected stock, will not shrink or swell. Used in place of Plaster, can be painted or papered over with good result.

ONE AND TWO PLY ARROW BRAND PARCHMENT
36 inches wide.
The Foster-Munger Co.

Made of Manilla stock, saturated with paraffine. Used for sheathing and lining for buildings of all descriptions, is absolutely air and waterproof.

ASBESTOS BUILDING FELT
Rolls 36 to 40 inches wide.
Weighs 1 pound to square yard.
The Foster-Munger Co.

Guaranteed absolutely fireproof. Used for lining all kinds of buildings, refrigerators, cold storage houses and between floors, also for covering steam pipes, hot air flues, etc.

Waterproof Sheathing BLACK NEPONSET
In rolls of 250 square feet.
In rolls of 500 square feet.
36 inches wide.
The Foster-Munger Co.

Absolutely waterproof Paper, made of selected stock, intended as a sheathing paper, but can be used for roofing and as a lining for cold storage houses.

CEDAR MOTH PROOF CARPET LINING
50 yards to roll.
36 inches wide.
The Foster-Munger Co.

A Carpet Lining of smooth surface and weighs about one pound to the square yard.

GREY CORRUGATED CARPET LINING
50 yards to roll.
36 inches wide.
The Foster-Munger Co.

Also made in blue, permanent corrugations, strong, elastic and made from good stock.

NOISELESS DEADENING FELT
32 inches wide.
Weighs 1 pound to square yard.
Roll weighs about 75 lbs.
The Foster-Munger Co.

Made of selected wool stock (no straw), makes an excellent carpet lining, affords protection against cold, heat and dampness.

EUREKA DEADENING FELT
32 inches wide.
9 square feet to the pound.
Roll weighs about 75 lbs.
The Foster-Munger Co.

Made of selected, all wool stock, a perfect non-conductor of sound, makes the very best of carpet lining, 1-16 of an inch thick.

EXCELSIOR DEADENING FELT
32 inches wide.
6 square feet to the pound.
Roll weighs about 80 lbs.
The Foster-Munger Co.

Made of selected wool stock and owing to its thickness (⅛ of an inch) makes the best deadening felt attainable, it makes an extra fine grade of carpet lining, prevents wear which comes from the use of hard linings.

We furnish building papers at lowest market price at time order is received. The fluctuations of the market make it impractical to price in this catalogue.

PREPARED ROOFING.

"Black Diamond"

Thoroughly durable, adapted to flat or steep roofs; not affected by temperature steam or acids; easily laid—no special tools required (does not impart taste to rain-water); waterproof and practically fireproof. The cheapest and best-appearing roof for residences, barns, factories, sheds, etc., etc.

OUR TWO AND THREE-PLY FELT is 32 inches wide, and put up in rolls, each containing **108 Square Feet,** and about 40 feet 6 inches in length, allowing two inches for lap. Every roll **will cover 100 Square Feet,** or 10 x 10, and each roll is wrapped and labeled with directions for putting on.

To Ascertain the Size of a Roof.

For a flat roof multiply the length by the width. For instance: if length of house is 50 feet and width 20 feet, the entire surface is 1,000 square feet, requiring 10 squares. If a roof be steep, of one-third pitch, add one-third to previous measurement, 50x20, 1,000 plus ⅓ equals 1,333 square feet (14 squares).

Fig. 2. TWO-PLY.

Fig. 3. THREE-PLY.

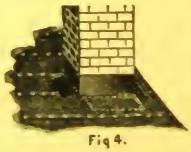

Fig 4.

Fig. 2.

A.—The method of **unrolling** and laying Felt.
B.—Showing **lap** of top width over lower one.
C.—Showing **splice** of the Felt.
D.—Fastening of Felt with **wooden cleat** at eaves and gables.

Directions for Laying.

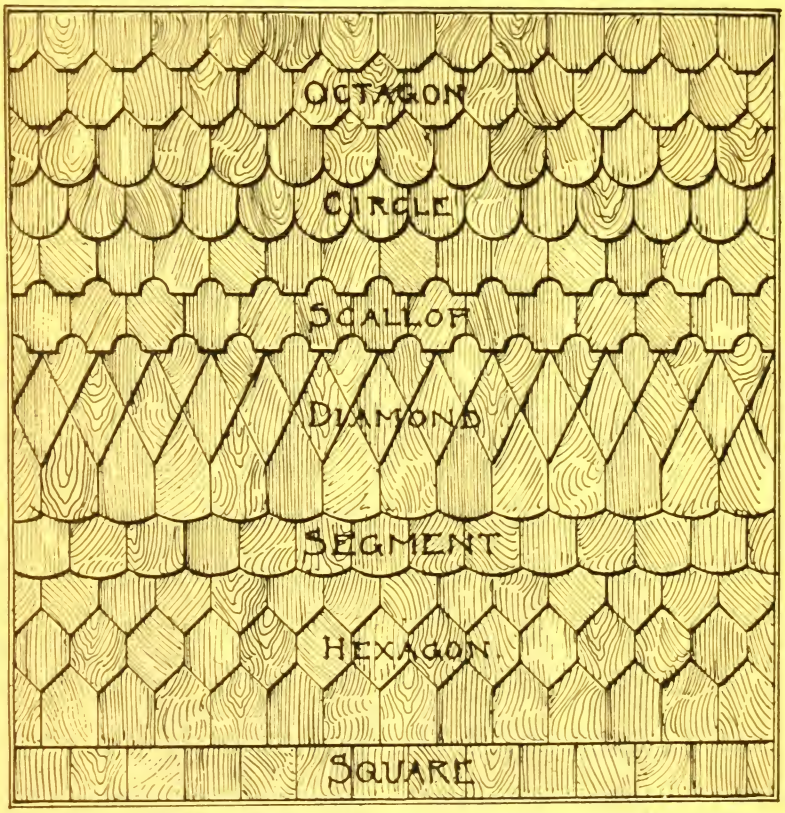

The roof boards should be dry, of uniform thickness, but not necessarily dressed or matched. Cover knot-holes with tin and sweep clean of nails, chips, etc. Commence nailing at eaves or gutter, laying first strip parallel and close to edge. Nail first lower edge with 4-penny or 1¼-inch barbed wire nails, every two inches, using tin caps (figure 2). Always begin in center of roof and nail toward ends, otherwise you might raise a bunch in the center. Nail well along the edges, chimney, scuttles, etc. (figure 4). Let the second sheet lap over **two inches,** and be sure and coat well with cement between the laps. Cleats nailed along edges work well, though not necessary. When laid complete apply the cement thoroughly with brush; when dry sprinkle sand and apply the second coat. The dry building sand is not necessary, but we recommend it with second coat—it forms hard surface.

Price per 100 Sq. Ft., Material Complete, on Orders of 10 or More Squares.

One Roll 2-ply Felt	$1.30	One Roll 3-ply Felt	$1.80
Asphaltum Cement	.45	Asphaltum Cement	.45
Tin Caps	.15	Tin Caps	.15
Roofing Nails	.10	Roofing Nails	.10
Total	$2.00	Total	$2.50

Above is list price of material necessary for one square (10x10), or 100 square feet of roofing ready to lay. Subject to discount.

DRESSED DIMENSION SHINGLES.

THE FOSTER MUNGER CO.
CHICAGO.

COMPLETE ELECTRIC BELL SET.

Can be Sold, not alone for New Houses, But to Improve Old Ones.

ELECTRIC BELL H6155,

Consisting of one 2½ inch electric bell, one wood push button, one dry battery, 75 feet insulated wire, staples complete, packed in a box. Price per set, complete, $1.45

The dry battery or electrical power will last five years in perfect order, and can then be replaced at a cost of less than 30 cents. It is not effected by temperature. Any carpenter can string the wires, set the bell, battery and push-button in two hours' work, and when set is immediately in running order. The setting of an elcctric bell set is a simple matter, and requires no expert.

Simple, Durable, Cheap.

DIRECTIONS.

The bell can be fastened to the wall, usually ten to fourteen inches from the ceiling in the servant's room, or the room mostly occupied. The battery can be put anywhere that is most convenient and out of the way. It is usually placed under the sink or in a closet near the bell. As the cut shows, the wire has to be uncovered about one inch back; that is, the covering to the wire removed so that the wire itself comes in contact with the bell, battery and push-button at the points provided.

After fastening the bell and placing the battery in such place as you want them, bore a hole through the front door casing (usually about opposite the door knob), and through it work the wire to connect with the push-button that you fasten on the outside. Then lead the wire along your ceiling or along the base-board, or in such place as to keep it mostly out of sight, using the staples that come with the set. Lead one wire from the push-button to the bell and one wire from the push-button to the battery (both the wires can be run along together under the same staples), and one wire from the battery to the bell, as the cut shows, and this forms the connection.

It is a very simple device (nothing dangerous), and at first sight your carpenter will understand thoroughly how to set it.

WIRE DOOR MATS.

Made in this style up to 18x30 inches (no center braces).

Made in this style over 18x30 inches (with center braces).

Our wire Mats are made from galvanized steel wire of a temper adapted to this particular use, which gives it a desirable and elastic surface. They have a rigid frame, which makes them lie flat and prevents curling. Both surfaces are alike, making it reversible. Effectually removes dirt, allowing it to drop through and preventing the meshes from clogging.

TELEPHONES.

Practical and cheap for private Telephone service for Lumbermen.

"AA"

TELEPHONE "AA."

A cheap, reliable, and efficient Telephone for short distance work only. Designed for use where but two telephones are required. Is intended for use from floor to floor, or from house to office, etc., not exceeding 1,500 feet apart.

For use under 300 feet but one battery is required to each 'phone, and over 300 feet and up to 1,500 feet, two batteries to each 'phone are necessary.

Price of Telephone complete, each, list..... $7.20

For price of Batteries and Wire, see opposite page.

TELEPHONE "BB."

An inter-communicating telephone. By the use of this system, anywhere from two to ten telephones can be connected to one wire, and any number of pairs may converse simultaneously without the slightest disturbance.

Each 'phone is equipped with a switch and ten buttons; the buttons are plainly marked from 1 to 10, and each number represents a telephone. No. 1 wishing to talk to No. 5, puts switch on button marked 5, rings the bell and the connection is made, and at the same time other parties may talk from telephones 2 and 7 and not be disturbed or hear the conversation carried on between 1 and 5.

"BB"

This system is intended for use anywhere under 1,500 feet, and is designed for use from buildings to buildings or from different parts or departments of buildings. Each 'phone requires two batteries.

Price of Telephone complete.....each, list, $9.00

For price of Batteries or Wire, see opposite page.

PUTTING IN A TELEPHONE SYSTEM.

To string the wires, put up the telephones and make the connection is a simple matter. With each outfit we send full directions for putting up.

Prices subject to Discount.

TELEPHONES.

TELEPHONE "CC."

A magneto telephone, intended for use anywhere under 300 miles; is equipped with a 10,000 ohm generator, which assures perfect sound. It is the best telephone on the market for the distance, and at the price which we offer it makes it an inexpensive system, guaranteed to give perfect satisfaction. Two batteries required for each telephone.

Price of Telephone complete, each ..... list, $13.50

To have a complete outfit, order must include wire and batteries as may be wanted.

THE FOSTER-MUNGER CO.'S LAWN SWING.

Best Lawn Swing on the Market.

No. F-M 12. Single width seats Swing, for 2 persons.
No. F-M 14. Double " " " " 4 "

Sketch showing the Foster-Munger Co. Lawn Swing folded, ready for moving or shipping.

For description and prices, see opposite page.

The Foster-Munger Co....

LAWN SWING

WE SHOW on the preceding page, cut of our improved Lawn Swing, mechanically correct, built stronger, and finished better than any Lawn Swing on the market, and much cheaper in price.

We build these Swings of hardwood, finish them in two coats of vermilion red and varnish, giving an excellent finish, making it highly ornamental for the lawn, and a finish that will stand exposure to the weather.

This Swing is built 8½ feet high; the sweep of the Swing is 16 feet. It nearly swings itself. A slight motion of the body with a pressure of the foot on the footboard starts the swing in motion. We construct them with single width seats, for two persons, or with double width seats, for four persons. The single width seat swings are tested to carry safely 500 lbs., and the double width seat swings, 1,000 lbs.

The Foster-Munger Co. Swing is the most popular on the market, and we highly recommend it to our customers.

We crate each Swing separately for convenience in shipping and handling. They come put together, all ready for use; are easily set up, can be taken down, folded and moved about readily at will.

LIST PRICES BELOW.

No. F-M 12. Single width seats, for 2 persons . . . . . list price, $5.00
